Notes to Consolidated Financial Statements

Definition of Terms

Equity LifeStyle Properties, Inc., a Maryland corporation, together with MHC Operating Limited Partnership (the “Operating Partnership”) and other consolidated subsidiaries (“Subsidiaries”) are referred to herein as “we,” “us,” and “our.” Capitalized terms used but not defined herein are as defined in our Annual Report on Form 10-K (“2015 Form 10-K”) for the year ended December 31, 2015.

Note 1 – Summary of Significant Accounting Policies

(a) Basis of Presentation and Principles of Consolidation

We follow accounting standards set by the Financial Accounting Standards Board, commonly referred to as the “FASB.” The FASB sets generally accepted accounting principles (“GAAP”), which we follow to ensure that we consistently report our financial condition, results of operations and cash flows. References to GAAP issued by the FASB in these footnotes are to the FASB Accounting Standards Codification (the “Codification”).

These unaudited Consolidated Financial Statements have been prepared pursuant to Securities and Exchange Commission (“SEC”) rules and regulations. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements and should be read in conjunction with the financial statements and notes thereto included in the 2015 Form 10-K. The following notes to the Consolidated Financial Statements highlight significant changes to the notes included in the 2015 Form 10-K and present interim disclosures as required by the SEC. The accompanying Consolidated Financial Statements reflect, in the opinion of management, all adjustments and estimates necessary for a fair presentation of the interim financial statements, which are of a normal, recurring nature. Revenues are subject to seasonal fluctuations and accordingly, quarterly interim results may not be indicative of full year results.

The accompanying Consolidated Financial Statements include the consolidation of our accounts. We do not have controlling interests in any of our joint ventures (“JV”), which are therefore treated under the equity method of accounting and not consolidated in our financial statements. The holders of limited partnership interests in the Operating Partnership (“Common OP Unitholders”) receive an allocation of net income that is based on their respective ownership percentage of the Operating Partnership which is shown in our Consolidated Financial Statements as Non-controlling interests-Common OP Units. All significant intercompany balances and transactions have been eliminated in consolidation.

Effective January 1, 2016, we adopted (“ASU 2015-02”) *Consolidation (Topic 810): Amendments to the Consolidation Analysis*. ASU 2015-02 required us to evaluate whether we should consolidate certain legal entities. Principally, the new consolidation standard modified the evaluation of whether limited partnerships and similar legal entities are variable interest entities (“VIE”) or voting interest entities. Based on our review and subsequent analysis of the structure of our legal entities, we concluded that the Operating Partnership is a VIE because the limited partners of the Operating Partnership do not have substantive kick-out or participating rights. We are the general partner and controlling owner of approximately 92.2% of the Operating Partnership and we will continue to consolidate the Operating Partnership under this new guidance. With respect to our investment in unconsolidated joint ventures, the new consolidation standard did not have an impact on our previous consolidation conclusions.

Effective January 1, 2016, we adopted (“ASU 2015-03”) *Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs* and (“ASU 2015-15”) *Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements*. ASU 2015-03 requires that debt issuance costs be deducted from the carrying value of the financial liability and not recorded as separate assets, previously classified as deferred financing costs. The recognition and measurement guidance for debt issuance costs are not affected by ASU 2015-03. ASU 2015-15 states that presentation of costs associated with securing a revolving line of credit as an asset is permitted, regardless of whether a balance is outstanding. ASU 2015-03 and 2015-15 require retrospective adoption and as a result we reclassified deferred financing costs on our Consolidated Balance Sheets as of December 31, 2015, as presented herein (See Note 7 to the Consolidated Financial Statements for further details).

(b) Identified Intangibles and Goodwill

As of September 30, 2016 and December 31, 2015, the gross carrying amount of identified intangible assets and goodwill, a component of escrow deposits, goodwill and other assets, net on our consolidated balance sheets, was approximately \$12.1 million. As of September 30, 2016 and December 31, 2015, this amount was comprised of approximately \$4.3 million of identified intangible assets and approximately \$7.8 million of goodwill. Accumulated amortization of identified intangible assets was approximately \$2.8 million and \$2.6 million as of September 30, 2016 and December 31, 2015, respectively. For the quarters ended September 30, 2016 and 2015, amortization expense for the identified intangible assets was approximately \$0.1 million

Equity LifeStyle Properties, Inc.

Note 1 – Summary of Significant Accounting Policies (continued)

respectively. For the nine months ended September 30, 2016 and 2015 amortization expense for the identified intangible assets was approximately \$0.2 million and \$0.3 million, respectively.

(c) Restricted Cash

Our cash balance as of September 30, 2016 and December 31, 2015 included approximately \$5.3 million and \$5.0 million respectively, of restricted cash for the payment of capital improvements, insurance or real estate taxes.

(d) Fair Value of Financial Instruments

Our financial instruments include notes receivable, accounts receivable, accounts payable, other accrued expenses, interest rate swaps and mortgage notes payable. We disclose the estimated fair value of our financial instruments according to a fair value hierarchy (Level 1, 2 and 3).

Our mortgage notes payable and term loan, excluding deferred financing costs of approximately \$18.8 million and \$19.7 million, respectively, had an aggregate carrying value of approximately \$2.1 billion as of September 30, 2016 and December 31, 2015, and a fair value of approximately \$2.1 billion and \$2.2 billion as of September 30, 2016 and December 31, 2015, respectively. The fair value was measured using quoted prices and observable inputs from similar liabilities (Level 2). At September 30, 2016 and December 31, 2015, our cash flow hedge of interest rate risk included in accrued expenses and accounts payable was measured using quoted prices and observable inputs from similar assets and liabilities (Level 2). We consider our own credit risk as well as the credit risk of our counterparties when evaluating the fair value of our derivative. The fair values of our notes receivable approximate their carrying or contract values. We also utilize Level 2 and Level 3 inputs as part of our determination of the purchase price allocation for our acquisitions, as discussed in Note 4 to the Consolidated Financial Statements.

(e) Deferred Financing Costs, net

Deferred financing costs includes fees and costs incurred to obtain long-term financing and are amortized over the terms of the respective loans on a basis that approximates level yield. Unamortized deferred financing fees are written-off when debt is retired before the maturity date. Upon amendment of the line of credit or refinancing of mortgage debt, unamortized deferred financing fees are accounted for in accordance with Codification Sub-Topic *Modifications and Extinguishments* ("FASB ASC 470-50-40"). Accumulated amortization for such costs was \$30.7 million and \$33.7 million at September 30, 2016 and December 31, 2015, respectively.

(f) Recent Accounting Pronouncements

In August 2016, the FASB issued ("ASU 2016-15") *Statement of Cash Flows (Topic 230)*. ASU 2016-15 provides guidance on how certain cash receipts and cash payments are to be presented and classified in the statement of cash flows. ASU 2016-15 will be effective for annual reporting periods beginning after December 15, 2017. Early adoption is permitted. We are currently in the process of evaluating the potential impact, if any, that adoption of this standard may have on our consolidated financial statements and related disclosures.

In June 2016, the FASB issued ("ASU 2016-13") *Financial Instruments - Credit Losses (Topic 326)*. ASU 2016-13 requires entities to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. Entities will now use forward-looking information to better form their credit loss estimates. ASU 2016-13 also requires enhanced disclosures to help financial statement users better understand significant estimates and judgments used in estimating credit losses, as well as the credit quality and underwriting standards of an entity's portfolio. ASU 2016-13 will be effective for annual reporting periods beginning after December 15, 2019. Early adoption is permitted. We are currently in the process of evaluating the potential impact, if any, that adoption of this standard may have on our consolidated financial statements and related disclosures.

In March 2016, the FASB issued ("ASU 2016-09") *Compensation—Stock Compensation (Topic 718)*. ASU 2016-09 is intended to simplify several aspects of the accounting for share-based payments. ASU 2016-09 will be effective for annual reporting periods beginning after December 15, 2016. Early adoption is permitted. The Company is in the process of evaluating the impact, if any, that adoption of this standard may have on our consolidated financial statements and related disclosures.

In February 2016, the FASB issued ("ASU 2016-02") *Leases*. ASU 2016-02 amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to

lessor accounting. ASU 2016-02 requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. ASU 2016-02 will be effective for annual reporting periods beginning after December 15, 2018. Early adoption is permitted. We are currently evaluating the potential impact this standard may have on our consolidated financial statements and related disclosures.

In May 2014, the FASB issued ("ASU 2014-09") *Revenue from Contracts with Customers* which along with related subsequent amendments will replace most existing revenue recognition guidance in U.S. GAAP. The core principle of ASU 2014-09 is that an entity should recognize revenue for the transfer of goods or services equal to the amount that it expects to be entitled to receive for those goods or services. ASU 2014-09 requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments. ASU 2014-09 does not apply to lease contracts accounted for under ASC 840, Leases. Entities can transition to the standard either retrospectively or as a cumulative-effect adjustment as of the date of adoption. On July 9, 2015, the FASB deferred the effective date by one year for annual reporting periods beginning after December 15, 2017. The FASB will permit early adoption of the standard, but not before the original effective date of December 15, 2016. We are currently in the process of evaluating the impact that adoption of the standard will have on our consolidated financial statements and related disclosures.

\$0.425	September 30, 2016	September 30, 2016	October 14, 2016

On May 4, 2015, we extended our at-the-market (“ATM”) offering program by entering into new separate equity distribution agreements with certain sales agents, pursuant to which we may sell, from time-to-time, shares of our Common Stock, par value \$0.01 per share, having an aggregate offering price of up to \$125.0 million. The following table presents the shares that were issued under the ATM equity offering program during the nine months ended September 30, 2016 (amounts in thousands, except stock data):

	Nine Months Ended September 30, 2016
Shares of Common Stock sold	683,548
Weighted average price	\$ 73.15
Total gross proceeds	\$ 50,000
Commissions paid to sales agents	\$ 657

As of September 30, 2016, \$75.0 million of Common Stock remained available for issuance under the ATM equity offering program. We did not sell any shares under the ATM offering program for the comparable nine month period in 2015.

Acquisitions

All acquisitions have been accounted for utilizing the acquisition method of accounting in accordance with FASB ASC 805 and, accordingly, the results of operations of acquired assets are included in the Consolidated Statements of Income and Comprehensive Income from the dates of acquisition. Certain purchase price adjustments may be made within one year following the acquisition and applied prospectively in accordance with ASU 2015-16 Business Combinations (Topic 805): *Simplifying the Accounting for Measurement-Period Adjustments*.

On June 15, 2016, we completed the acquisition of Forest Lake Estates, a 1,168-Site property located in Zephyrhills, Florida. This property consists of 894 manufactured home community Sites and 274 RV resort Sites. The purchase price of approximately \$75.2 million was funded with proceeds from the ATM offering program and the assumption of mortgage debt of approximately \$22.6 million.

On May 26, 2016, we closed on the acquisition of Portland Fairview, a 407-Site RV resort located in Fairview, Oregon. The purchase price of approximately \$17.6 million was funded with available cash.

On January 27, 2016, we completed the acquisition of Rose Bay, a 303-Site RV resort, located in Port Orange, Florida. The total purchase price of approximately \$7.4 million was funded with available cash.

During the year ended December 31, 2015, we acquired two RV resorts, Whispering Pines and Miami Everglades, collectively containing 581 Sites, and one manufactured home community, Bogue Pines, containing 150 Sites. The combined purchase price of approximately \$23.9 million was funded with available cash.

Note 4 – Investment in Real Estate (continued)

The following table summarizes the estimated fair value of the assets acquired and liabilities assumed in the acquisitions for the nine months ended September 30, 2016 and the year ended December 31, 2015, which we determined using Level-2, for mortgage notes payable and other liabilities, and Level-3 inputs for assets (amounts in thousands):

	Nine Months Ended September 30, 2016	Year Ended December 31, 2015
Assets acquired		
Land	\$ 52,090	\$ 8,985
Buildings and other depreciable property	43,572	13,948

Mortgage notes payable	\$ 22,010	\$ —
Other liabilities	1,955	266
Total Liabilities assumed	\$ 23,965	\$ 266
Net assets acquired	\$ 76,203	\$ 23,687

On October 13, 2016, subsequent to the quarter ended September 30, 2016, we closed on the acquisition of Riverside RV, a 499-Site RV resort located in Arcadia, Florida. The purchase price of approximately \$20.3 million was funded with available cash.

Real estate acquisitions at cost

On August 15, 2016, we closed on the purchase of approximately 25 acres of vacant land adjacent to our Colony Cove and Ridgewood Estates manufactured home communities in Ellenton, Florida, for \$2.0 million.

Dispositions and real estate held for disposition

As of September 30, 2016, we did not have any Properties designated as held for disposition pursuant to FASB ASC 360-10-35.

Note 5 – Investment in Unconsolidated Joint Ventures

We recorded approximately \$2.1 million and \$3.6 million (each net of approximately \$1.0 million and \$0.8 million of depreciation expense, for the nine months ended September 30, 2016 and 2015, respectively) of equity in income from unconsolidated joint ventures for each of the nine months ended September 30, 2016 and 2015, respectively. We received approximately \$5.5 million and \$3.4 million in distributions from these joint ventures for the nine months ended September 30, 2016 and 2015, respectively. None of the distributions made to us exceeded our basis in joint ventures for the nine months ended September 30, 2016. Approximately \$1.4 million of the distributions made to us, using proceeds generated by refinancing transactions, exceeded our basis in joint ventures and as such, were recorded as income from unconsolidated joint ventures for the nine months ended September 30, 2015.

On August 29, 2016, the Voyager joint venture obtained additional loan funding in the amount of \$8.5 million, of which \$4.1 million was distributed to us. This distribution decreased our investment in the joint venture to approximately \$3.5 million as of September 30, 2016.

On January 4, 2016, we contributed approximately \$5.0 million to the ECHO Financing, LLC joint venture (the "ECHO JV"). Our total investment at September 30, 2016 is approximately \$15.3 million.

(a) The percentages shown approximate our economic interest as of September 30, 2016. Our legal ownership interest may differ.

(b) Voyager joint venture primarily consists of a 50% interest in Voyager RV Resort and 33% interest in the utility plant servicing the Property.

Note 6 - Notes Receivable

In certain cases, we purchase loans made by others to finance the sales of homes to our customers (“Chattel Loans”). Our Chattel Loans receivable require monthly principal and interest payments and are collateralized by homes at certain of the Properties. As of September 30, 2016 and December 31, 2015, we had approximately \$16.5 million and \$17.6 million, respectively, of these Chattel Loans included in notes receivable. As of September 30, 2016, the Chattel Loans receivable had a stated per annum average rate of approximately 7.8%, with a yield of 23.8%, and had an average term remaining of approximately eleven years. These Chattel Loans are recorded net of allowances of approximately \$0.3 million as of September 30, 2016 and December 31, 2015, respectively.

We also provide financing for non-refundable upgrades to existing right-to-use contracts (“Contracts Receivable”). As of September 30, 2016 and December 31, 2015, we had approximately \$17.8 million, respectively, of Contracts Receivable, net of allowances of approximately \$0.6 million. As of September 30, 2016 and December 31, 2015 the Contracts Receivable have an average stated interest rate of 16.2% and 16.1% per annum, respectively, have a weighted average term remaining of approximately four years and require monthly payments of principal and interest.

Note 7 – Borrowing Arrangements

With the adoption of ASU 2015-03 and ASU 2015-15, we reclassified deferred financing costs to mortgage notes payable in the amount of \$18.9 million as of December 31, 2015. In addition, we reclassified deferred financing costs to term loan in the amount of \$0.8 million as of December 31, 2015. Also, we reclassified deferred financing costs related to our unsecured line of credit to Escrow deposits, goodwill, and other assets, net in the amount of \$3.7 million as of December 31, 2015.

Mortgage Notes Payable

As of September 30, 2016 and December 31, 2015, we had outstanding mortgage indebtedness of approximately \$1.9 billion, excluding deferred financing costs. The weighted average interest rate, including the impact of premium/discount amortization and loan cost amortization on this mortgage indebtedness, for the nine months ended September 30, 2016 was approximately 4.9% per annum. The debt bears interest at stated rates ranging from 3.5% to 8.9% per annum and matures on various dates ranging from 2017 to 2041. The debt encumbered a total of 126 and 127 of our Properties as of September 30, 2016 and December 31, 2015, respectively, and the carrying value of such Properties was approximately \$2.3 billion and \$2.2 billion, respectively, as of such dates.

In connection with the Forest Lake Estates acquisition, we assumed approximately \$22.6 million of mortgage debt secured by the manufactured home community, with a stated interest rate of 4.51% per annum, which is set to mature in 2038.

During the nine months ended September 30, 2016, we completed refinancing activity and closed on loans with total gross proceeds of approximately \$54.5 million in the aggregate. The loans have a weighted average maturity of 25 years, carry a weighted average interest rate of 4.05% per annum and are secured by three manufactured home properties and one RV resort. Also, during the nine months ended September 30, 2016 we paid off four maturing mortgage loans of approximately \$37.0 million, with a weighted average interest rate of 5.83% per annum, secured by three manufactured home Properties and one RV resort.

Equity LifeStyle Properties, Inc.
Notes to Consolidated Financial Statements

Note 7 – Borrowing Arrangements (continued)

On October 12, 2016, we closed one mortgage loan of approximately \$15.0 million, with a 20 year term and stated interest rate of 3.55% per annum, secured by one manufactured home Property.

During the year ended December 31, 2015, we closed on loans with total gross proceeds of \$395.3 million. The loans have a weighted average maturity of 21 years, carry a weighted average interest rate of 3.93% per annum and were secured by 26 manufactured home Properties and RV resorts. Proceeds from the financings were used to retire by defeasance and prepayment approximately \$370.2 million of loans maturing at various times throughout 2015 and 2016, with a weighted average interest rate of 5.58% per annum, which were secured by 32 manufactured home Properties and RV resorts. We incurred approximately \$17.0 million in early debt retirement expense related to these loans.

Term Loan

As of September 30, 2016 and December 31, 2015, our \$200.0 million unsecured Term Loan (the “Term Loan”) matures on January 10, 2020 and has an interest rate of LIBOR plus 1.35% to 1.95% per annum and, subject to certain conditions, may be prepaid at any time without premium or penalty. The spread over LIBOR is variable quarterly based on leverage measured quarterly throughout the loan term. The Term Loan contains customary representations, warranties, and negative and affirmative covenants, and provides for acceleration of principal and payment of all other amounts payable thereunder upon the occurrence of certain events of default. In connection with the Term Loan, we also entered into a three year LIBOR Swap Agreement (the “2014 Swap”) allowing us to trade the variable interest rate for a fixed interest rate on the Term Loan (See Note 8 to the Consolidated Financial Statements for further information on the accounting for the 2014 Swap).

Unsecured Line of Credit

As of September 30, 2016 and December 31, 2015, our unsecured Line of Credit (“LOC”) had a borrowing capacity of \$400.0 million, with the option to increase the borrowing capacity by \$100.0 million, subject to certain conditions, with no amounts outstanding as of those dates. The LOC bears interest at a rate of LIBOR plus 1.20% to 1.65%, requires an annual facility fee of 0.20% to 0.35% and matures on July 17, 2018, with an option to extend for one additional year, subject to certain conditions. The spread over LIBOR is variable quarterly based on leverage throughout the loan term.

As of September 30, 2016, we are in compliance in all material respects with the covenants in our borrowing arrangements.

Note 8 – Derivative Instruments and Hedging Activities

Cash Flow Hedges of Interest Rate Risk

In connection with our Term Loan, we entered into the 2014 Swap (see Note 7 to the Consolidated Financial Statements for information about the Term Loan related to the 2014 Swap) allowing us to trade the variable interest rate for a fixed interest rate on the Term Loan. The 2014 Swap fixes the underlying LIBOR rate on the Term Loan at 1.04% per annum for the first three years and matures on August 1, 2017. Based on the leverage as of September 30, 2016, our spread over LIBOR is 1.35% resulting in an estimated all-in interest rate of 2.39% per annum.

We have designated the 2014 Swap as a cash flow hedge. No gain or loss was recognized in the Consolidated Statements of Income and Comprehensive Income related to hedge ineffectiveness or to amounts excluded from effectiveness testing on our cash flow hedge during the quarters and nine months ended September 30, 2016 and 2015.

Amounts reported in accumulated other comprehensive loss on the Consolidated Balance Sheets related to derivatives are reclassified to interest expense as interest payments are made on our variable-rate debt. During the next ten months, until maturity, we estimate that an additional \$0.6 million will be reclassified as an increase to interest expense. This estimate may be subject to change as the underlying LIBOR rate changes.

Note 10 – Equity Incentive Awards

Stock-based compensation expense, reported in general and administrative on the Consolidated Statements of Income and Comprehensive Income, for the quarters ended September 30, 2016 and 2015 was approximately \$2.4 million and \$2.3 million, respectively, and for the nine months ended September 30, 2016 and 2015 was approximately \$6.8 million and \$6.3 million, respectively.

Our 2014 Equity Incentive Plan (the “2014 Plan”) was adopted by our Board of Directors on March 11, 2014 and approved by our stockholders on May 13, 2014. Pursuant to the 2014 Plan, our officers, directors, employees and consultants may be awarded (i) shares of common stock (“Restricted Stock Grants”), (ii) options to acquire shares of common stock (“Options”), including non-qualified stock options and incentive stock options within the meaning of Section 422 of the Internal Revenue Code, and (iii) other forms of equity awards, subject to conditions and restrictions determined by the Compensation, Nominating, and Corporate Governance Committee of our Board of Directors (the “Compensation Committee”). The Compensation Committee will determine the vesting schedule, if any, of each Restricted Stock Grant or Option and the term of each Option, which term shall not exceed ten years from the date of grant. Shares that do not vest are forfeited. Dividends paid on restricted stock are not returnable, even if the underlying stock does not entirely vest. A maximum of 3,750,000 shares of common stock were originally available for grant under the 2014 Plan. As of September 30, 2016, 3,264,282 shares remained available for grant. For the nine months ended September 30, 2016, Options for 220,000 shares of common stock were exercised for gross proceeds of approximately \$5.2 million.

Grants under the 2014 Plan are approved by the Compensation Committee, which determines the individuals eligible to receive awards, the types of awards, and the terms, conditions and restrictions applicable to any award, except grants to directors which are approved by the Board of Directors.

Grants Issued

On May 10, 2016, we awarded Restricted Stock Grants for 14,705 shares of common stock at a fair market value of approximately \$1.1 million and awarded Options to purchase 7,550 shares of common stock with an exercise price of \$74.53 per share to certain members of our Board of Directors. The shares of common stock covered by these awards are subject to multiple tranches that vest as soon as November 10, 2016 and as late as May 10, 2019.

On February 1, 2016, we awarded Restricted Stock Grants for 73,000 shares of common stock at a fair market value of approximately \$4.9 million to certain members of our senior management for their service in 2016. These Restricted Stock Grants will vest on December 31, 2016.

On February 1, 2016, we awarded Restricted Stock Grants for 45,784 shares of common stock at a fair market value of approximately \$3.1 million to certain members of our Board of Directors for their services as Chairman of the Board, Chairman of the Compensation Committee and Lead Director, Chairman of the Executive Committee and Chairman of the Audit Committee in 2016. One-third of the shares of restricted common stock covered by these awards will vest on each of December 31, 2016, December 31, 2017, and December 31, 2018.

The fair market value of our restricted stock grants was determined by using the closing share price of our common stock on the date the shares were issued and is recorded as compensation expense and paid in capital over the vesting period.

Note 11 – Long-Term Cash Incentive Plan

On February 12, 2016, our Compensation Committee approved a Long-Term Cash Incentive Plan Award (the “2016 LTIP”) to provide a long-term cash bonus opportunity to certain members of our management. The 2016 LTIP was approved by the Compensation Committee pursuant to the authority set forth in the Long Term Cash Incentive Plan approved by our Board of Directors on May 15, 2007. The total cumulative payment for all participants (the “Eligible Payment”) is based upon certain performance conditions being met over a three year period ending December 31, 2018.

The Compensation Committee has responsibility for administering the 2016 LTIP and may use its reasonable discretion to adjust the performance criteria or Eligible Payments to take into account the impact of any major or unforeseen transaction or event. Our named executive officers are not participants in the 2016 LTIP. The Eligible Payment will be paid, at the discretion of our Compensation Committee, in cash upon completion of our annual audit for the 2018 fiscal year and upon satisfaction of the vesting conditions as outlined in the 2016 LTIP and, including employer costs, is currently estimated to be approximately \$5.6 million. As of September 30, 2016, we had accrued compensation expense of approximately \$1.4 million for the 2016 LTIP.

Note 11 – Long-Term Cash Incentive Plan (continued)

The amount accrued for the 2016 LTIP reflects our evaluation of the 2016 LTIP based on forecasts and other available information and is subject to performance in line with forecasts and final evaluation and determination by the Compensation Committee. There can be no assurances that our estimates of the probable outcome will be representative of the actual outcome.

California Rent Control Litigation

As part of our effort to realize the value of our Properties subject to rent control, we previously initiated lawsuits against certain localities in California with the goal of achieving a level of regulatory fairness in California's rent control jurisdictions, and in particular those jurisdictions that prohibit increasing rents to market upon turnover. Such regulations allow tenants to sell their homes for a price that includes a premium above the intrinsic value of the homes. The premium represents the value of the future discounted rent-controlled rents, which is fully capitalized into the prices of the homes sold. In our view, such regulations result in a transfer to the tenants of the value of our land, which would otherwise be reflected in market rents. We have discovered through the litigation process that certain municipalities considered condemning our Properties at values well below the value of the underlying land. In our view, a failure to articulate market rents for Sites governed by restrictive rent control would put us at risk for condemnation or eminent domain proceedings based on artificially reduced rents. Such a physical taking, should it occur, could represent substantial lost value to stockholders. We are cognizant of the need for affordable housing in the jurisdictions, but assert that restrictive rent regulation does not promote this purpose because tenants pay to their sellers as part of the purchase price of the home all the future rent savings that are expected to result from the rent control regulations, eliminating any supposed improvement in the affordability of housing. In a more well-balanced regulatory environment, we would receive market rents that would eliminate the price premium for homes, which would trade at or near their intrinsic value. Such efforts have included the following matters:

We sued the City of San Rafael on October 13, 2000 in the U.S. District Court for the Northern District of California, challenging its rent control ordinance on constitutional grounds. While the District Court found the rent control ordinance unconstitutional, the United States Court of Appeals for the Ninth Circuit reversed the District Court and ruled that the ordinance had not unconstitutionally taken our property. On September 3, 2013, we filed a petition for review by the U.S. Supreme Court, which was denied.

On January 31, 2012, we sued the City of Santee in the United States District for the Southern District of California challenging its rent control ordinance on constitutional grounds. On September 26, 2013, we entered a settlement agreement with the City pursuant to which we are able to increase Site rents at the Meadowbrook community through January 1, 2034 as follows: (a) a one-time 2.5% rent increase on all Sites in January 2014; plus (b) annual rent increases of 100% of the consumer price index (CPI) beginning in 2014; and (c) a 10% increase in the rent on a site upon turnover of that site. Absent the settlement, the rent control ordinance limited us to annual rent increases of at most 70% of CPI with no increases on turnover of a site.

Colony Park

On December 1, 2006, a group of tenants at our Colony Park Property in Ceres, California filed a complaint in the California Superior Court for Stanislaus County alleging that we had failed to properly maintain the Property and had improperly reduced the services provided to the tenants, among other allegations. We answered the complaint by denying all material allegations and filed a counterclaim for declaratory relief and damages. The case proceeded in Superior Court because our motion to compel arbitration was denied and the denial was upheld on appeal. Trial of the case began on July 27, 2010. After just over three months of trial in which the plaintiffs asked the jury to award a total of approximately \$6.8 million in damages, the jury rendered verdicts awarding a total of less than \$44,000 to six out of the 72 plaintiffs, and awarding nothing to the other 66 plaintiffs. The plaintiffs who were awarded nothing filed a motion for a new trial or alternatively for judgment notwithstanding the jury's verdict, which the Superior Court denied on February 14, 2011. All but three of the 66 plaintiffs to whom the jury awarded nothing appealed. Oral argument in the appeal was held on September 19, 2013 and the matter was taken under submission by the California Court of Appeal.

By orders entered on December 14, 2011, the Superior Court awarded us approximately \$2.0 million in attorneys' fees and other costs jointly and severally against the plaintiffs to whom the jury awarded nothing, and awarded no attorneys' fees or costs to either side with respect to the six plaintiffs to whom the jury awarded less than \$44,000. Plaintiffs filed an appeal from the approximately \$2.0 million award of our attorneys' fees and other costs. Oral argument in that appeal was also held on September 19, 2013. On December 3, 2013, the Court of Appeal issued a partially published opinion that rejected all of plaintiffs' claims on appeal except one, relating to whether the park's rules prohibited the renting of spaces to recreational vehicles. The Court of Appeal

Note 12 – Commitments and Contingencies (continued)

reversed the judgment on the recreational vehicle issue and remanded for further proceedings regarding that issue. Because the judgment was reversed, the award of attorney's fees and other costs was also reversed. Both sides filed rehearing petitions with the Court of Appeal. On December 31, 2013, the Court of Appeal granted the defendants' rehearing petition and ordered the parties to submit supplemental briefing, which the parties did. On March 10, 2014, the Court of Appeal issued a new partially published opinion in which it again rejected all of the plaintiffs' claims on appeal except the one relating to whether the park's rules prohibited the renting of spaces to recreational vehicles, reversing the judgment on that issue and remanding it for further proceedings, and accordingly vacating the award of attorney's fees and other costs.

As of result of a settlement we reached with the plaintiffs remaining in the litigation, pursuant to which among other provisions the parties agreed to mutually release all of their claims in the litigation without any payment by us, on September 28, 2015 the plaintiffs filed with the Superior Court a request for dismissal with prejudice of the entire action, to which we consented. On July 14, 2016, the Superior Court entered a dismissal of the action with prejudice.

California Hawaiian

On April 30, 2009, a group of tenants at our California Hawaiian Property in San Jose, California filed a complaint in the California Superior Court for Santa Clara County, Case No. 109CV140751, alleging that we have failed to properly maintain the Property and have improperly reduced the services provided to the tenants, among other allegations. We moved to compel arbitration and stay the proceedings, to dismiss the case, and to strike portions of the complaint. By order dated October 8, 2009, the Superior Court granted our motion to compel arbitration and stayed the court proceedings pending the outcome of the arbitration. The plaintiffs filed with the California Court of Appeal a petition for a writ seeking to overturn the Superior Court's arbitration and stay orders. On May 10, 2011, the Court of Appeal granted the petition and ordered the Superior Court to vacate its order compelling arbitration and to restore the matter to its litigation calendar for further proceedings. On May 24, 2011, we filed a petition for rehearing requesting the Court of Appeal to reconsider its May 10, 2011 decision. On June 8, 2011, the Court of Appeal denied the petition for rehearing. On June 16, 2011, we filed with the California Supreme Court a petition for review of the Court of Appeal's decision. On August 17, 2011, the California Supreme Court denied the petition for review.

The trial commenced on January 27, 2014. On April 14-15, 2014, the jury entered verdicts against our Operating Partnership of approximately \$15.3 million in compensatory damages and approximately \$95.8 million in punitive damages. On October 6, 2014, we filed a motion for a new trial and a motion for partial judgment notwithstanding the jury's verdict. On December 5, 2014, after briefing and a hearing on those motions, the Superior Court entered an order granting us a new trial on the issue of damages while upholding the jury's determination of liability. As grounds for the ruling, the Superior Court cited excessive damages and insufficiency of the evidence to support the verdict as to the amount of damages awarded by the jury. The Superior Court's ruling overturned the April 2014 verdicts of \$15.3 million in compensatory damages and \$95.8 million in punitive damages. On January 28, 2015, we and the plaintiffs each served notices of appeal from the Superior Court's December 5, 2014 order. The Court of Appeal issued an order setting the briefing sequence and ordered commencement of the briefing. On December 15, 2015, the plaintiffs filed their opening appellants' brief; on March 25, 2016, we filed our combined respondents' and opening brief; on July 8, 2016, the plaintiffs filed their combined reply and cross-respondents' brief; and on September 26, 2016, we filed our reply brief, which is the final brief pursuant to the Court of Appeal's order setting forth the briefing sequence. We intend to continue to vigorously defend ourselves in this litigation.

At September 30, 2016, based on the information available to us, a material loss was neither probable nor estimable. We have taken into consideration the events that have occurred after the reporting period and before the financial statements were issued. We anticipate a lengthy time period to achieve resolution of this case.

Monte del Lago

On February 13, 2015, a group of tenants at our Monte del Lago Property in Castroville, California filed a complaint in the California Superior Court for Monterey County, Case No. M131016, alleging that we have failed to properly maintain the Property and have improperly reduced the services provided to the tenants, among other allegations. We believe the allegations are without merit and intend to vigorously defend ourselves in the lawsuit. On May 13, 2015, we filed a motion to compel arbitration with respect to certain plaintiffs and to stay the litigation pending the conclusion of the arbitration proceedings. Hearings on the motion were held on July 17, 2015 and September 18, 2015. On October 7, 2015, the Superior Court denied our motion. On December 3, 2015, we filed a notice of appeal from the denial of our motion, and on October 4, 2016, we filed our opening appellants' brief.

Note 12 – Commitments and Contingencies (continued)

Santiago Estates

On September 4, 2015, a group of tenants at our Santiago Estates Property in Sylmar, California filed a complaint in the California Superior Court for Los Angeles County, Case No. BC593831, alleging that we have failed to properly maintain the Property and have improperly reduced the services provided to the tenants, among other allegations. We believe the allegations are without merit and intend to vigorously defend ourselves in the lawsuit.

On November 24, 2015, we filed a motion to compel arbitration with respect to certain plaintiffs and to stay the litigation pending the conclusion of the arbitration proceedings. The hearing on that motion was held on August 19, 2016, and the Superior Court granted our motion and ordered the plaintiffs subject to arbitration agreements to resolve all claims alleged in their complaint by arbitration and stayed the remainder of the litigation while the arbitration proceeds. On September 12, 2016, we filed a demand for arbitration seeking, among other things, a declaration, with respect to the plaintiffs subject to arbitration agreements, that their claims are without merit as well as for recovery of attorneys' fees and costs. On September 30, 2016, plaintiffs filed an ex parte motion in the Superior Court requesting that the Superior Court stay the arbitration proceedings. The Superior Court heard oral argument on the motion on September 30, 2016, we filed a written opposition brief on October 5, 2016 and the Superior Court denied the motion on October 14, 2016. On October 18, 2016, the plaintiffs filed with the California Court of Appeal a petition for a writ seeking to overturn the Superior Court's order compelling arbitration and requested an immediate stay of the arbitration. On October 19, 2016, the Court of Appeal denied the request for stay, without prejudice to plaintiffs' resubmitting the request in the event they make a stay request to the arbitrator and that request is denied.

Civil Investigation by Certain California District Attorneys

In November 2014, we received a civil investigative subpoena from the office of the District Attorney for Monterey County, California ("MCDA"), seeking information relating to, among other items, statewide compliance with asbestos and hazardous waste regulations dating back to 2005 primarily in connection with demolition and renovation projects performed by third-party contractors at our California Properties. We responded by providing the information required by the subpoena.

On October 20, 2015, we attended a meeting with representatives of the MCDA and certain other District Attorneys' offices at which the MCDA reviewed the preliminary results of their investigation including, among other things, (i) alleged violations of asbestos and related regulations associated with approximately 200 historical demolition and renovation projects in California; (ii) potential exposure to civil penalties and unpaid fees; and (iii) next steps with respect to a negotiated resolution of the alleged violations. No legal proceedings have been instituted to date, and we are involved in settlement discussions with the District Attorneys' offices. We continue to assess the allegations and the underlying facts, and at this time we are unable to predict the outcome of the investigation or reasonably estimate any possible loss.

Alpine Lake RV Resort OSHA Citations

On February 19, 2016, we received a Citation and Notice of Penalty from the Occupational Safety and Health Administration ("OSHA") alleging two willful and seven serious safety violations relating to the design and maintenance of the electrical system at our Alpine Lake RV Resort in Corinth, New York, and assessing fines totaling \$187,000. We have been working with a certified third-party electrician to address the items raised in the citations.

On March 9, 2016, we attended an informal conference in Albany, New York with the OSHA Area Director. The matter was not resolved at the meeting, and we filed the required notice of contest on March 10, 2016 after which the matter was transferred to the Occupational Safety & Health Review Commission, which is represented by a solicitor from the Department of Labor. The solicitor filed a complaint on May 20, 2016, and the parties participated in a formal settlement conference on June 22, 2016. The parties did not reach a settlement at the formal settlement conference. Absent the parties reaching a settlement, we anticipate that this matter will proceed to trial, which is currently scheduled to take place in April 2017. We intend to continue to vigorously defend ourselves, and at this time we are unable to predict the outcome of this matter.

Other

In addition to legal matters discussed above, we are involved in various other legal and regulatory proceedings ("Other Proceedings") arising in the ordinary course of business. The Other Proceedings include, but are not limited to, notices, consent decrees, information requests, and additional permit requirements and other similar enforcement actions by governmental agencies relating to our utility infrastructure, including water and wastewater treatment plants and other waste treatment facilities and electrical systems. Additionally, in the ordinary course of business, our operations are subject to audit by various taxing authorities.

Note 12 – Commitments and Contingencies (continued)

Management believes these Other Proceedings taken together do not represent a material liability. In addition, to the extent any such proceedings or audits relate to newly acquired Properties, we consider any potential indemnification obligations of sellers in our favor.

Note 13 – Reportable Segments

Operating segments are defined as components of an entity for which separate financial information is available that is evaluated regularly by the chief operating decision maker. The chief operating decision maker evaluates and assesses performance on a monthly basis. Segment operating performance is measured on Net Operating Income (“NOI”). NOI is defined as total operating revenues less total operating expenses. Segments are assessed before interest income, depreciation and amortization of in-place leases.

We have identified two reportable segments which are: (i) Property Operations and (ii) Home Sales and Rentals Operations. The Property Operations segment owns and operates land lease Properties and the Home Sales and Rentals Operations segment purchases, sells and leases homes at the Properties. The distribution of the Properties throughout the United States reflects our belief that geographic diversification helps insulate the portfolio from regional economic influences.

All revenues are from external customers and there is no customer who contributed 10% or more of our total revenues during the nine months ended September 30, 2016 or 2015.

The following tables summarize our segment financial information for the quarters and nine months ended September 30, 2016 and 2015 (amounts in thousands):

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Overview and Outlook

We are a self-administered, self-managed, real estate investment trust (“REIT”) with headquarters in Chicago, Illinois. We are a fully integrated owner and operator of lifestyle-oriented properties (“Properties”) consisting primarily of manufactured home (“MH”) communities and recreational vehicle (“RV”) resorts and campgrounds. We lease individual developed areas (“Sites”) with access to utilities for placement of factory built homes, cottages, cabins or RVs. Customers may lease individual Sites or enter right-to-use contracts providing the customer access to specific Properties for limited stays. As of September 30, 2016, we owned or had an ownership interest in a portfolio of 390 Properties located throughout the United States and Canada containing 145,799 Sites. These properties are located in 32 states and British Columbia.

This Quarterly Report on Form 10-Q for the quarter ended September 30, 2016 includes certain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. When used, words such as “anticipate,” “expect,” “believe,” “project,” “intend,” “may be” and “will be” and similar words or phrases, or the negative thereof, unless the context requires otherwise, are intended to identify forward-looking statements and may include without limitation, information regarding our expectations, goals or intentions regarding the future, and the expected effect of our acquisitions. These forward-looking statements are subject to numerous assumptions, risks and uncertainties, including, but not limited to:

- our ability to control costs, real estate market conditions, the actual rate of decline in customers, the actual use of Sites by customers and our success in acquiring new customers at our Properties (including those that we may acquire);
- our ability to maintain historical or increase future rental rates and occupancy with respect to Properties currently owned or that we may acquire;
- our ability to retain and attract customers renewing, upgrading and entering right-to-use contracts;
- our assumptions about rental and home sales markets;
- our ability to manage counterparty risk;
- in the age-qualified Properties, home sales results could be impacted by the ability of potential home buyers to sell their existing residences as well as by financial, credit and capital markets volatility;
- results from home sales and occupancy will continue to be impacted by local economic conditions, lack of affordable manufactured home financing and competition from alternative housing options including site-built single-family housing;
- impact of government intervention to stabilize site-built single-family housing and not manufactured housing;
- effective integration of recent acquisitions and our estimates regarding the future performance of recent acquisitions;

Management's Discussion (continued)

- the completion of future transactions in their entirety, if any, and timing and effective integration with respect thereto;
- unanticipated costs or unforeseen liabilities associated with recent acquisitions;
- ability to obtain financing or refinance existing debt on favorable terms or at all;
- the effect of interest rates;
- the dilutive effects of issuing additional securities;
- the effect of accounting for the entry of contracts with customers representing a right-to-use the Properties under the Codification Topic "Revenue Recognition";
- the outcome of pending or future lawsuits filed against us, including those disclosed in our filings with the Securities and Exchange Commission, by tenant groups seeking to limit rent increases and/or seeking large damage awards for our alleged failure to properly maintain certain Properties or other tenant related matters, such as the case currently pending in the California Court of Appeal, Sixth Appellate District, Case No. H041913, involving our California Hawaiian manufactured home property, including any further proceedings on appeal or in the trial court; and
- other risks indicated from time to time in our filings with the Securities and Exchange Commission.

These forward-looking statements are based on management's present expectations and beliefs about future events. As with any projection or forecast, these statements are inherently susceptible to uncertainty and changes in circumstances. We are under no obligation to, and expressly disclaim any obligation to, update or alter our forward-looking statements whether as a result of such changes, new information, subsequent events or otherwise.

Total Sites as of September 30, 2016		145,799

Our gross investment in real estate has increased approximately \$163.0 million to \$4,641 million as of September 30, 2016 from \$4,478 million as of December 31, 2015 primarily due to the acquisition of Rose Bay, Portland Fairview and Forest Lake Estates as well as increased capital expenditures.

Subsequent to the end of the quarter, on October 13, 2016, we closed on the acquisition of Riverside RV, a 499-Site RV resort located in Arcadia, Florida. The purchase price of approximately \$20.3 million was funded with available cash.

We actively seek to acquire and are currently engaged in various stages of negotiations relating to the possible acquisition of additional properties, which may include contracts outstanding to acquire such properties that are subject to the satisfactory completion of our due diligence review.

Occupancy in our Properties, as well as our ability to increase rental rates, directly affects revenues. Our revenue streams are predominantly derived from customers renting our Sites on a long-term basis. Some revenue streams are subject to seasonal fluctuations and accordingly, quarterly interim results may not be indicative of full fiscal year results.

Management's Discussion (continued)

The following table shows the breakdown of our Sites by type. Our MH community Sites and annual RV resort Sites are leased on an annual basis. Seasonal Sites are leased to customers generally for one to six months. Transient Sites are leased to customers on a short-term basis. The revenue from seasonal and transient Sites is generally higher during the first and third quarters. We consider the transient revenue stream to be our most volatile as it is subject to weather conditions and other factors affecting the marginal RV customer's vacation and travel preferences. Sites designated as right-to-use Sites are primarily utilized to service the approximately 106,700 customers who have entered right-to-use contracts. We also have interests in joint venture Properties for which revenue is classified as Equity in income from unconsolidated joint ventures in the Consolidated Statements of Income and Comprehensive Income.

	Total Sites as of September 30, 2016
Community Sites	71,000
Resort Sites:	
Annual	26,300
Seasonal	10,800
Transient	10,500
Right-to-use ⁽¹⁾	24,100
Joint Ventures ⁽²⁾	3,100
	<hr/> <hr/> 145,800

⁽¹⁾ Includes approximately 5,700 Sites rented on an annual basis.

⁽²⁾ Joint ventures have approximately 2,200 annual Sites, approximately 400 seasonal Sites and approximately 500 transient Sites.

For the periods presented, our Core Portfolio ("Core Portfolio") consists of our Properties owned and operated during the entire period. This measure is useful to investors for annual comparison as it removes the fluctuations associated with acquisitions, dispositions and significant transactions or unique situations, which are included in income from property operations, excluding deferrals and property management. For the quarter ended September 30, 2016, property operating revenues in our Core Portfolio, excluding deferrals, were up 4.7% and property operating expenses in our Core Portfolio, excluding deferrals and property management, were up 4.1%, resulting in an increase in Core net operating income before deferrals and property management of 5.3%.

Approximately one third of our rental agreements on community Sites have rent increases that are directly or indirectly connected to published CPI statistics that are issued from June through September of the year prior to the increase effective date. Approximately one half of those rental agreements have a CPI floor of approximately 3.0%.

State and local rent control regulations affect 27 Properties, including 19 of our 49 California Properties, all of our seven Delaware Properties and one of our five Massachusetts Properties. The impact of the rent control regulations is to limit our ability to implement rent increases based on prevailing market conditions. The regulations generally permit us to increase rates by a percentage of the increase in the CPI, which may be national, regional or local, depending on the rent control ordinance. The limit on rent increases may range from 60% to 100% of CPI with certain maximum limits depending on the jurisdiction.

In the years following the disruption in the site-built housing market, our home sales business was negatively affected by our customers' inability to sell their existing site-built homes and relocate to their retirement destination. As a result, we focused on home rentals rather than sales as our primary source of occupancy upon turnover. As we managed and expanded our portfolio of rental homes, we placed homes in communities where we believed we could successfully sell homes as the market improved. At these Properties, we have been successful at selling homes and driving occupancy gains through increased home ownership. We continue to allocate capital to home purchases based on our assessment of market conditions and emphasize home sales. We continue to see population growth in our key markets, increased access to distribution channels for our products and a renewed willingness by our customers to commit to us for longer periods of time. We have also seen a decrease in homes coming back to us, which generally means that our residents have the opportunity to resell their homes to new residents. While we continue to focus on selling homes, we continue to evaluate rental units, and based on market conditions, we expect to invest in additional new homes for customer rentals.

We continue to focus on the quality of occupancy growth by increasing the number of homeowners in our Core portfolio. As of September 30, 2016, we increased occupancy in our Core Portfolio by 450 Sites, which included a gain of 628 homeowners. This compares to the first nine months of 2015, during which occupancy increased by 380 Sites resulting from a gain of 791 homeowners.

Since 2013, we have experienced an increase in the sales volume of new and used homes in our communities. We attribute this increase to various factors including management's focus on increasing the number of homeowners within our communities, changes to incentive structures for our on-site personnel to emphasize home sales rather than rentals and willingness of an increasing number of customers to commit their capital to purchase a home in one of our communities. New home sales in the manufactured

Management's Discussion (continued)

home communities in our Core Portfolio during the nine months ended September 30, 2016 increased by 156 new homes over the same period in the prior year. The recent new home sales have been primarily in our Colorado and Florida communities. (See the Home Sales Operations tables in the sections below for additional detail regarding our home sales activity.)

In the ordinary course of business, we acquire used homes from customers through purchase, foreclosure of a lien, or abandonment. In a vibrant home sales market in which residents are able to resell their homes, we generally acquire fewer homes through foreclosure or abandonment. Used homes may require rehabilitation before selling or renting them to new customers.

During 2013 we formed a joint venture, ECHO Financing, LLC (the "ECHO JV"), with a home manufacturer to buy and sell homes, as well as to purchase loans made by an unaffiliated lender to purchasers of such homes at our Properties. The ECHO JV may also rent homes to customers in our communities. We also have a limited program under which we purchase loans made by an unaffiliated lender to purchasers of homes at our Properties.

In the manufactured housing industry, chattel financing options available today include community owner funded programs or third party lender programs that provide subsidized financing to customers and require the community owner to guarantee customer defaults. Third party lender programs have stringent underwriting criteria, sizable down payment requirements, short loan amortization and high interest rates.

As of September 30, 2016, we had 4,789 occupied rental homes in our MH communities. For the quarters ended September 30, 2016 and 2015, home rental program net operating income was approximately \$7.9 million and \$8.0 million, respectively, net of rental asset depreciation expense of approximately \$2.7 million for both periods. Approximately \$8.9 million and \$9.0 million of home rental operations revenue was included in community base rental income for the quarters ended September 30, 2016 and 2015, respectively (see the Rental Operations tables in the sections below for additional detail regarding our rental activity). We believe at this time we compete effectively with other types of rentals (i.e., apartments).

For the nine months ended September 30, 2016 and 2015, home rental program net operating income was approximately \$24.6 million and \$24.9 million, respectively, net of rental asset depreciation expense of approximately \$8.0 million and \$8.1 million, respectively. Approximately \$27.0 million and \$27.7 million of home rental operations revenue was included in community base rental income for the nine months ended September 30, 2016 and 2015, respectively (see the Rental Operations tables in the sections below for additional detail regarding our rental activity).

In our RV resorts, we are focused on engaging with our existing customers and providing them the lifestyle they seek as well as attracting additional customers interested in our Properties. We continue to experience growth in our annual revenues as a result of our ability to increase rental rates and occupancy. Our third quarter Core Portfolio annual revenues were 5.8% higher than the third quarter of last year. We believe our customer base is loyal and engaged in the lifestyle we offer at our Properties. We have annual customers who have stayed with us for more than ten years and our member base includes members who have camped with us for more than twenty years. Our social media presence has increased within this member base and we have also been successful at providing a venue for our customers to promote our Properties by encouraging them to share their memories of their adventures at our resorts. We believe this is an important factor in a customer's decision to relocate. Our customers continue to increase the amount of time spent shopping online for their home and vacation decisions. We have also expanded our marketing efforts to reach approximately 40 million outdoor enthusiasts (according to the 2014 American Camper Report) to inform them about our product offerings.

For our membership based RV resorts, we offer low-cost membership products that focus on the installed base of approximately nine million RV owners. Such products include right-to-use contracts that entitle the customer to use certain Properties. We are offering a Thousand Trails Camping Pass ("TTC") (formerly Zone Park Pass), which can be purchased for one to five geographic areas of the United States and requires an annual payment of \$545. A single zone TTC requires no additional upfront payment while additional zones may be purchased for modest additional upfront payments. Since the introduction of low-cost membership products, we have entered into approximately 100,900 TTCs. Our renewal rate for these memberships is approximately 43.2%.

We have arranged with RV dealers to feature our TTC as part of the dealers' sales and marketing efforts. We provide the dealer with a TTC membership to give to their customers in connection with the purchase of an RV. No cash is received from the member during the first year of membership for memberships activated through the RV dealer program. Since inception, we have activated 42,686 TTCs through the RV dealer program. Our renewal rate for these RV dealer memberships is approximately 16.8%.

Management's Discussion (continued)

The table below provides additional details regarding our TTCs:

	Years Ended December 31,				Nine Months Ended

<i>RV Dealer TTC Activations</i>	<i>1,289</i>	<i>6,318</i>	<i>8,173</i>	<i>13,667</i>	<i>13,239</i>

Existing customers are eligible to upgrade their right-to-use contract from time-to-time. An upgrade is distinguishable from a new right-to-use contract that a customer would enter by, depending on the type of upgrade, offering (1) increased length of consecutive stay by 50% (i.e., up to 21 days); (2) ability to make earlier advance reservations; (3) discounts on rental units; (4) access to additional Properties, which may include use of Sites at non-membership RV resorts and (5) membership in discount travel programs. Each upgrade contract requires a nonrefundable upfront payment. For certain customers, we finance the nonrefundable upfront payment for these upgrades.

Critical Accounting Policies and Estimates

Refer to the 2015 Form 10-K for a discussion of our critical accounting policies, which includes impairment of real estate assets and investments, revenue recognition and business combinations. There have been no changes to these policies during the nine months ended September 30, 2016.

Supplemental Measures

Management's discussion and analysis of financial condition and results of operations include certain non-GAAP financial measures that in management's view of the business we believe are meaningful as they allow the investor the ability to understand key operating details of our business both with and without regard to certain accounting conventions or items that may not always be indicative of recurring annual cash flow of the portfolio. These non-GAAP financial measures as determined and presented by us may not be comparable to similarly titled measures reported by other companies, and include Income from property operations, Funds from Operations ("FFO") and Normalized Funds from Operations ("Normalized FFO"). We believe investors should review FFO, Normalized FFO and Income from property operations, along with GAAP net income and cash flow from operating activities, investing activities and financing activities, when evaluating an equity REIT's operating performance. A discussion of FFO, Normalized FFO and a reconciliation to net income is included in the presentation of FFO following our "Results of Operations."

Income from property operations represents rental income, utility income and right-to-use income less property operating and maintenance, real estate taxes, sales and marketing, and property management expenses. We believe that Income from property operations is helpful to investors and analysts as a measure of the operating results of our manufactured home and RV communities.

Income from Property Operations

The following table summarizes certain financial and statistical data for the Core Portfolio and the total portfolio for the quarters ended September 30, 2016 and 2015 (amounts in thousands). The Core Portfolio may change from time-to-time depending on acquisitions, dispositions and significant transactions or unique situations. The Core Portfolio in this Form 10-Q includes all Properties acquired prior to December 31, 2014 and which we have owned and operated continuously since January 1, 2015. Core Portfolio growth percentages exclude the impact of GAAP deferrals of upfront payments from right-to-use contracts and related commissions.

⁽¹⁾ Non-GAAP measure.

The increase in total portfolio income from property operations, which includes recently acquired properties, is primarily due to increases in Core community base rental income, Core resort base rental income, increased utility and other property income, partially offset by an overall increase in expenses, with the most significant increases relating to utility expense, property payroll and repairs and maintenance expense.

The \$5.2 million, or 4.7%, increase in Core Portfolio community base rental income primarily reflects a 3.8% growth from rate increases and approximately 0.9% growth from occupancy gains. The average monthly base rent per Site increased to approximately \$592 for the quarter ended September 30, 2016 from approximately \$570 for the corresponding quarter in 2015. The average occupancy increased to 93.6% for the quarter ended September 30, 2016 from 92.8% for the corresponding quarter in 2015.

Management's Discussion (continued)

Resort base rental income is comprised of the following (amounts in thousands):

	Core Portfolio				Total Portfolio			
	2016	2015	Variance	% Change	2016	2015	Variance	% Change

Right-to-use contracts current period, gross, net of sales and marketing, gross, decreased primarily as a result of lower upgrade sales by our third party sales agent. During the third quarter, there were 740 upgrade sales with an average price per sale of \$4,962. This compares to 798 upgrade sales with an average price per sale of \$4,873 for the quarter ended September 30, 2015.

The increase in utility and other income is primarily due to increased utility recovery of electric and water income, as well as insurance proceeds received of approximately \$0.2 million related to two prior events.

The increase in property operating and maintenance expenses was primarily driven by increased property payroll, repair and maintenance and utility expense. The increase in property payroll resulted from 2016 salary increases. The increase in repair and maintenance was largely due to extraordinary expenses, including expenses related to insurance losses, such as a fire at one of our locations, and modest clean-up expenses following Hurricane Hermine. In addition, we incurred higher than expected repairs and maintenance expenses at certain locations related to the temporary interruption of water and sewer service. The increase in utility expense is driven by increases in sewer, water, trash and electric expenses.

Home Sales Operations

⁽²⁾ Total new home sales volume includes home sales from our ECHO JV for the quarters ended September 30, 2016 and 2015, respectively.

The decrease in income from home sales operations and other is primarily due to lower revenue from ancillary services, which includes retail sales at various Properties, as well as higher home selling expenses, offset by lower gross losses on used home sales.

⁽¹⁾ Rental operations revenue consists of Site rental income and home rental income. Approximately \$8.9 million and \$9.0 million for the quarters ended September 30, 2016 and 2015, respectively, of Site rental income are included in Community base rental income in the Income from Property Operations table. The remainder of home rental income is included in Rental home income in the Income from Property Operations table.

⁽²⁾ Included in depreciation on real estate and other costs in the Consolidated Statements of Income and Comprehensive Income.

⁽³⁾ New home cost basis does not include the costs associated with our ECHO JV. Our investment in the ECHO JV was \$15.3 million and \$10.3 million at September 30, 2016 and 2015, respectively.

⁽⁴⁾ Includes 158 and 72 homes rented through our ECHO JV during the quarters ended September 30, 2016 and 2015, respectively.

The decrease in income from rental operations is primarily due to a decrease in the number of occupied rental units. The occupancy decrease is partially offset by the change in the mix of occupied rentals, driven by an increased number of occupied new homes at a higher rental rate.

Other Income and Expenses

The following table summarizes other income and expenses for the quarters ended September 30, 2016 and 2015 (amounts in thousands, expenses shown as negative).

Total other income and expenses, net	\$ (60,494)	\$ (59,585)	\$ (909)	(1.5)%

Depreciation on real estate and rental homes increased primarily due to increased capital expenditures and the acquisitions that occurred during the first half of 2016 (see Note 4 to the Consolidated Financial Statements for additional detail regarding our recent acquisition activity).

A decrease in secured debt, resulting from the 2015 refinancing and prepayment activity, and lower weighted average interest rates contributed to the decrease in interest and related amortization.

⁽¹⁾ Non-GAAP measure.

The increase in total portfolio income from property operations, which includes recently acquired properties, is primarily due to increases in Core community base rental income, Core resort base rental income as well as increased utility and other property income. The increase is partially offset by an overall increase in expenses, with the most significant increases relating to repairs and maintenance, payroll and property taxes.

The \$15.0 million, or 4.6%, increase in Core Portfolio community base rental income primarily reflects a 3.8% growth from rate increases and a 0.8% growth from occupancy gains. The average monthly base rent per Site increased to approximately \$588 for the year-to-date 2016 from approximately \$567 for the corresponding year-to-date 2015. The average occupancy increased to 93.3% in 2016 from 92.5% in 2015.

Management's Discussion (continued)

Resort base rental income is comprised of the following (amounts in thousands):

	Core Portfolio				Total Portfolio

Right-to-use contracts current period, gross, net of sales and marketing, gross, decreased primarily as a result of lower upgrade sales by our third party sales agent. During the nine months ended September 30, 2016, there were 1,892 upgrade sales with an average price per sale of \$4,910. This compares to 2,152 upgrade sales with an average price per sale of \$4,770 for the nine months ended September 30, 2015. This decrease in sales by our third party sales agent was partially offset by an increase in upgrade sales by our in-park staff as we continue to experience increased demand for our upgraded product from our newest TTC members. The overall decline is offset by lower commission expense to sales agents during the nine months ended September 30, 2016.

The increase in utility and other income is primarily due to increased utility recovery related to higher electric and water usage, insurance proceeds of approximately \$1.0 million related to four prior events that impacted certain Properties, and proceeds of approximately \$0.4 million as a result of granting an easement at a certain Property in Pennsylvania.

The increase in property operating and maintenance expenses was primarily driven by increased property payroll, repair and maintenance, and utility expense. The increase in property payroll resulted from 2016 salary increases, while the increase in repair and maintenance was largely due to excess water hauling expense as a result of significant rainfall in the South region, increased landscaping expenses, snow removal costs in the Northeast region and other extraordinary expenses including a fire at one of our Properties and modest clean up expenses following Hurricane Hermine. The increase in utility expense is primarily driven by increases in sewer, water, electric and trash expenses at certain Properties, and is offset by the increase in utility recoveries reflected in utility and other income.

Home Sales Operations

The following table summarizes certain financial and statistical data for the Home Sales Operations for the nine months ended September 30, 2016 and 2015 (amounts in thousands, except home sales volumes).

⁽²⁾ Total new home sales volume includes home sales from our ECHO JV for the nine months ended September 30, 2016 and 2015, respectively.

The decrease in income from home sales operations and other is primarily due to lower revenue from ancillary services, which includes retail sales at various Properties, as well as a small gross loss from new home sales.

⁽¹⁾ Rental operations revenue consists of Site rental income and home rental income. Approximately \$27.0 million and 27.7 million for the nine months ended September 30, 2016 and 2015, respectively, of Site rental income are included in Community base rental income in the Income from Property Operations table. The remainder of home rental income is included in Rental home income in the Income from Property Operations table.

⁽²⁾ Included in depreciation on real estate and other costs in the Consolidated Statements of Income and Comprehensive Income.

⁽³⁾ New home cost basis does not include the costs associated with our ECHO JV. Our investment in the ECHO JV was \$15.3 million and \$10.3 million at September 30, 2016 and 2015, respectively.

⁽⁴⁾ Includes 158 and 72 homes rented through our ECHO JV in 2016 and 2015, respectively.

The decrease in income from rental operations is primarily due to a decrease in the number of occupied rental units. The occupancy decrease is partially offset by the change in the mix of occupied rentals, driven by an increased number of occupied new homes at a higher rental rate.

Other Income and Expenses

The following table summarizes other income and expenses for the nine months ended September 30, 2016 and 2015 (amounts in thousands, expenses shown as negative).

Depreciation on real estate and rental homes increased primarily due to increased capital expenditures and the acquisitions that occurred during the first half of 2016 (see Note 4 to the Consolidated Financial Statements for additional detail regarding our recent acquisition activity).

Early debt retirement expense was higher in 2015 as a result of the defeasance and prepayment activity that occurred during the first quarter of 2015.

A decrease in secured debt, resulting from the aforementioned refinancing and prepayment activity, and lower weighted average interest rates contributed to the decrease in interest and related amortization.

Liquidity and Capital Resources

Liquidity

Our primary demands for liquidity include payment of operating expenses, debt service, including principal and interest, capital improvements on properties, purchasing both new and pre-owned homes, acquisitions of new Properties, and distributions. We expect similar demands for liquidity will continue for the short-term and long-term. Our primary sources of cash include operating cash flows, proceeds from financings, borrowings under our unsecured Line of Credit ("LOC") and proceeds from issuance of equity and debt securities.

On May 4, 2015, we extended our at-the-market ("ATM") offering program by entering into new separate equity distribution agreements with certain sales agents, pursuant to which we may sell, from time-to-time, shares of our common stock, par value \$0.01 per share, having an aggregate offering price of up to \$125.0 million. For the nine months ended September 30, 2016, we sold 683,548 shares of our common stock under the ATM offering Program for gross cash proceeds of approximately \$50.0 million before expenses of approximately \$0.7 million. As of September 30, 2016, \$75.0 million of common stock remained available for issuance under the ATM equity offering program. In addition, we have available liquidity in the form of authorized and unissued preferred stock of approximately 9.9 million shares and approximately 114.7 million shares of authorized but unissued common stock registered for sale under the Securities Act of 1933, as amended, by a shelf registration statement which was automatically effective when filed with the SEC. Our charter allows us to issue up to 200.0 million shares of common stock, par value \$0.01 per share, and up to 10.0 million shares of preferred stock, par value \$0.01 per share.

One of our stated objectives is to maintain financial flexibility. Achieving this objective allows us to take advantage of strategic opportunities that may arise. We believe effective management of our balance sheet, including maintaining various access points to raise capital, manage future debt maturities and borrow at competitive rates enables us to meet this objective. We believe that as of September 30, 2016, we have sufficient liquidity, in the form of \$63.6 million in available cash, net of restricted cash, and \$400.0 million available on our LOC, to satisfy our near term obligations. Our LOC has a borrowing capacity of \$400.0 million with the option to increase the borrowing capacity by \$100.0 million, subject to certain conditions (See Note 7 to the Consolidated Financial Statements).

We expect to meet our short-term liquidity requirements, including the third quarter distribution of approximately \$39.3 million paid on October 14, 2016, as well as all the remaining distributions, generally through available cash as well as net cash provided by operating activities and availability under our existing LOC. We consider these resources to be adequate to meet our operating requirements for capital improvements, amortizing debt and payment of dividends and distributions.

We expect to meet certain long-term liquidity requirements such as scheduled debt maturities, property acquisitions and capital improvements by use of our current cash balance, long-term collateralized and uncollateralized borrowings including borrowings under the existing LOC and the issuance of debt securities or additional equity securities, in addition to net cash provided by operating activities. As of September 30, 2016, we have no remaining scheduled debt maturities in 2016 (excluding scheduled principal payments on debt maturing in 2016 and beyond). We expect to satisfy our 2017 maturities with existing cash and anticipated operating cash flow.

In connection with the acquisition completed in June 2016, we assumed approximately \$22.6 million of mortgage debt secured by the Forest Lake Estates manufactured home community with a stated interest rate of 4.51% per annum, which is set to mature in 2038.

During the nine months ended September 30, 2016, we completed refinancing activity and closed on loans with total gross proceeds of approximately \$54.5 million in the aggregate. The loans have a weighted average maturity of 25 years, carry a weighted average interest rate of 4.05% per annum and are secured by three manufactured home properties and one RV resort. We also paid off four maturing mortgage loans of approximately \$37.0 million, with a weighted average interest rate of 5.83% per annum, secured by three manufactured home Properties and one RV resort.

On October 12, 2016, we closed on one loan of approximately \$15.0 million. The loan had a stated interest rate of 3.55% per annum, a 20 year term and is secured by one manufactured home property.

Management's Discussion (continued)

The table below summarizes cash flow activity for the nine months ended September 30, 2016 and 2015 (amounts in thousands):

	Nine Months Ended September 30,	
	2016	2015
Net cash provided by operating activities	\$ 274,582	\$ 287,219
Net cash used in investing activities	(166,073)	(95,260)
Net cash used in financing activities	(119,955)	(176,278)
Net (decrease)/increase in cash	\$ (11,446)	\$ 15,681

Operating Activities

Net cash provided by operating activities decreased \$12.6 million to \$274.6 million for the nine months ended September 30, 2016, from \$287.2 million for the nine months ended September 30, 2015. The overall decrease in net cash provided by operating activities is primarily due to a decrease of \$10.9 million in Accrued expenses and accounts payable, a decrease in Escrow deposits, goodwill and other assets of \$12.0 million, as well as a decrease of \$5.1 million in Rents received in advance and security deposits, partially offset by an increase in Income from property operations of \$20.5 million.

Investing Activities

Net cash used in investing activities was \$166.1 million for the nine months ended September 30, 2016 compared to \$95.3 million for the nine months ended September 30, 2015. Significant components of net cash used in investing activities include:

- We paid approximately \$78.2 million (net of mortgage debt assumed of \$22.6 million) in 2016 to acquire Rose Bay RV Resort, Forest Lakes Estates and Portland Fairview which resulted in an additional 984 RV Sites and 894 manufactured home Sites, as well as vacant land in Florida for \$2.0 million. We paid approximately \$23.7 million in 2015 to acquire the Bogue Pines MH Property, Whispering Pines RV Resort and Miami Everglades RV Resort. These acquisitions contributed an additional 731 Sites.
- We contributed \$5.0 million to our ECHO JV in 2016 compared to the \$4.0 million we invested in 2015. During 2016 we received capital distributions of \$4.1 million from our Voyager JV (see Note 5 to the Consolidated Financial Statements for a description of our joint ventures).
- We paid approximately \$87.3 million and \$67.8 million for capital improvements during the nine months ended September 30, 2016 and 2015, respectively (see Capital Improvements table below).

Management's Discussion (continued)

Capital Improvements

The table below summarizes capital improvement activity for the nine months ended September 30, 2016 and 2015 (amounts in thousands):

	Nine Months ended September 30, ⁽¹⁾

⁽²⁾ Recurring capital expenditures are primarily comprised of common area improvements, furniture, and mechanical improvements.

⁽³⁾ Excludes new home investment associated with our ECHO JV.

Financing Activities

Net cash used in financing activities was \$120.0 million for the nine months ended September 30, 2016 compared to net cash used in financing activities of \$176.3 million for the nine months ended September 30, 2015. Significant components of net cash used in financing activities include:

- We paid approximately \$29.2 million of amortizing principal debt, approximately \$37.0 million to repay four maturing mortgages, and \$43.0 million to refinance two mortgage loans in 2016. This compares to 2015 where we had approximately \$27.8 million of amortizing principal debt, approximately \$48.7 million of maturing mortgage, defeased approximately \$370.2 million of debt and paid a total of approximately \$24.0 million in debt issuance and defeasance costs as well as early debt retirement costs. (See Note 7 to the Consolidated Financial Statements for a description of our borrowing arrangements).
- We sold 683,548 shares of our common stock under the ATM offering program for gross cash proceeds of approximately \$50.0 million before expenses during the nine months ended September 30, 2016 (see Note 3 to the Consolidated Financial Statements for a description of our equity transactions).
- We received \$54.5 million in financing proceeds in 2016 compared to \$395.3 million in financing proceeds in 2015. (see Note 7 to the Consolidated Financial Statements for a description of our borrowing arrangements).
- We made distributions of approximately \$119.5 million in the first nine months of 2016 to Common Stockholders, Common OP unitholders and preferred stockholders which were partially offset by proceeds received of approximately \$5.8 million from the exercise of stock options and the sale of shares through the employee stock purchase plan (see Note 3 to the Consolidated Financial Statements for a description of our equity transactions).
- We made distributions of approximately \$105.1 million in the first nine quarter of 2015 to Common Stockholders, Common OP unitholders and preferred stockholders and paid approximately \$0.4 million for offering costs, offset by proceeds received of approximately \$4.6 million from the exercise of stock options and the sale of shares through the employee stock purchase plan (see Note 3 to the Consolidated Financial Statements for a description of our equity transactions).

Management's Discussion (continued)

Contractual Obligations

As of September 30, 2016, we were subject to certain contractual payment obligations as described in the table below (amounts in thousands):

Weighted average interest rates - Long Term Borrowings	4.47%	4.78%	4.70%	4.62%	4.41%	4.50%	4.28%

⁽¹⁾ Balance excludes note premiums of \$6.2 million and deferred financing costs of approximately \$18.8 million. Balances include debt maturing and scheduled periodic principal payments.

⁽²⁾ Amounts include interest expected to be incurred on our secured debt and Term Loan based on obligations outstanding as of September 30, 2016.

⁽³⁾ As of September 30, 2016, assumes we will not exercise our one year extension option on July 17, 2018 and assumes we will maintain our current leverage ratios as defined by the LOC.

⁽⁴⁾ We also lease land under non-cancelable operating leases at certain of the Properties expiring in various years from 2017 to 2054. The majority of the lease terms require twelve equal payments per year plus additional rents calculated as a percentage of gross revenues.

⁽⁵⁾ We do not include insurance, property taxes and cancelable contracts in the contractual obligations table.

We believe that we will be able to refinance our maturing debt obligations on a secured or unsecured basis; however, to the extent we are unable to refinance our debt as it matures, we believe that we will be able to repay such maturing debt through available cash as well as operating cash flow, asset sales and/or the proceeds from equity issuances. With respect to any refinancing of maturing debt, our future cash flow requirements could be impacted by significant changes in interest rates or other debt terms, including required amortization payments.

Inflation

Substantially all of the leases at the Properties allow for monthly or annual rent increases which provide us with the opportunity to achieve increases, where justified by the market, as each lease matures. Such types of leases generally minimize our risks of inflation. In addition, our resort Properties are not generally subject to leases and rents are established for these Sites on an annual basis. Our right-to-use contracts generally provide for an annual dues increase, but dues may be frozen under the terms of certain contracts if the customer is over 61 years of age.

Off Balance Sheet Arrangements

As of September 30, 2016, we have no off balance sheet arrangements.

Funds From Operations

Funds from Operations ("FFO") is a non-GAAP financial measure. We define FFO as net income, computed in accordance with GAAP, excluding gains and actual or estimated losses from sales of properties, plus real estate related depreciation and amortization, impairments, if any, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures are calculated to reflect FFO on the same basis. We compute FFO in accordance with our interpretation of standards established by the National Association of Real Estate Investment Trusts ("NAREIT"), which may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently than we do. We receive up-front non-refundable payments from the entry of right-to-use contracts. In accordance with GAAP, the upfront non-refundable payments and related commissions are deferred and amortized over the estimated customer life. Although the NAREIT definition of FFO does not address the treatment of non-refundable right-to-use payments, we believe that it is appropriate to adjust for the impact of the deferral activity in our calculation of FFO.

We believe FFO, as defined by the Board of Governors of NAREIT, is generally a measure of performance for an equity REIT. While FFO is a relevant and widely used measure of operating performance for equity REITs, it does not represent cash flow from operations or net income as defined by GAAP, and it should not be considered as an alternative to these indicators in evaluating liquidity or operating performance.

Normalized Funds from Operations ("Normalized FFO") is a non-GAAP measure. We define Normalized FFO as FFO excluding the following non-operating income and expense items: a) the financial impact of contingent consideration; b) gains

Management's Discussion (continued)

and losses from early debt extinguishment, including prepayment penalties and defeasance costs; c) property acquisition and other transaction costs related to mergers and acquisitions; and d) other miscellaneous non-comparable items. Normalized FFO presented herein is not necessarily comparable to Normalized FFO presented by other real estate companies due to the fact that not all real estate companies use the same methodology for computing this amount.

We believe that FFO and Normalized FFO are helpful to investors as supplemental measures of the performance of an equity REIT. We believe that by excluding the effect of depreciation, amortization, impairments, if any, and actual or estimated gains or losses from sales of real estate, all of which are based on historical costs and which may be of limited relevance in evaluating current performance, FFO can facilitate comparisons of operating performance between periods and among other equity REITs. We further believe that Normalized FFO provides useful information to investors, analysts and our management because it allows them to compare our operating performance to the operating performance of other real estate companies and between periods on a consistent basis without having to account for differences not related to our operations. For example, we believe that excluding the early extinguishment of debt, property acquisition and other transaction costs related to mergers and acquisitions from Normalized FFO allows investors, analysts and our management to assess the sustainability of operating performance in future periods because these costs do not affect the future operations of the properties. In some cases, we provide information about identified non-cash components of FFO and Normalized FFO because it allows investors, analysts and our management to assess the impact of those items.

Our definitions and calculations of these non-GAAP financial and operating measures and other terms may differ from the definitions and methodologies used by other REITs and, accordingly, may not be comparable. These non-GAAP financial and operating measures do not represent cash generated from operating activities in accordance with GAAP, nor do they represent cash available to pay distributions and should not be considered as an alternative to net income, determined in accordance with GAAP, as an indication of our financial performance, or to cash flow from operating activities, determined in accordance with GAAP, as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to make cash distributions.

The following table presents a calculation of FFO available for Common Stock and OP Unit holders and Normalized FFO available for Common Stock and OP Unit holders for the quarters and nine months ended September 30, 2016 and 2015 (amounts in thousands):

	Quarters Ended September 30,		Nine Months Ended September 30,

Item 3. Quantitative and Qualitative Disclosure of Market Risk

We disclosed a quantitative and qualitative analysis regarding market risk in Part II, Item 7A. Quantitative and Qualitative Disclosures About Market Risk on Form 10-K for the year ended December 31, 2015. There have been no material changes in the assumptions used or results obtained regarding market risk since December 31, 2015.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer), has evaluated the effectiveness of our disclosure controls and procedures as of September 30, 2016. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective to give reasonable assurances to the timely collection, evaluation and disclosure of information relating to us that would potentially be subject to disclosure under the Securities and Exchange Act of 1934, as amended (the "Exchange Act"), and the rules and regulations promulgated thereunder as of September 30, 2016.

Notwithstanding the foregoing, a control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that it will detect or uncover failures within us to disclose material information otherwise required to be set forth in our periodic reports.

Changes in Internal Control Over Financial Reporting

During the third quarter of 2016, there were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

I, Paul Seavey, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Equity LifeStyle Properties, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
