Notes to Consolidated Financial Statements

Definition of Terms

Equity LifeStyle Properties, Inc., a Maryland corporation, together with MHC Operating Limited Partnership (the “Operating Partnership”) and other consolidated subsidiaries (“Subsidiaries”) are referred to herein as “we,” “us,” and “our.” Capitalized terms used but not defined herein are as defined in our Annual Report on Form 10-K (“2014 Form 10-K”) for the year ended December 31, 2014.

Note 1 – Summary of Significant Accounting Policies

(a) Basis of Presentation and Principles of Consolidation

We follow accounting standards set by the Financial Accounting Standards Board, commonly referred to as the “FASB.” The FASB sets generally accepted accounting principles (“GAAP”), which we follow to ensure that we consistently report our financial condition, results of operations and cash flows. References to GAAP issued by the FASB in these footnotes are to the FASB Accounting Standards Codification (the “Codification”).

These unaudited Consolidated Financial Statements have been prepared pursuant to Securities and Exchange Commission (“SEC”) rules and regulations. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements and should be read in conjunction with the financial statements and notes thereto included in the 2014 Form 10-K. The following notes to the Consolidated Financial Statements highlight significant changes to the notes included in the 2014 Form 10-K and present interim disclosures as required by the SEC. The accompanying Consolidated Financial Statements reflect, in the opinion of management, all adjustments and estimates necessary for a fair presentation of the interim financial statements, which are of a normal, recurring nature. Revenues are subject to seasonal fluctuations and accordingly, quarterly interim results may not be indicative of full year results.

The accompanying Consolidated Financial Statements include the consolidation of our accounts. We do not have controlling interests in any of our joint ventures (“JV”), which are therefore treated under the equity method of accounting and not consolidated in our financial statements. The holders of limited partnership interests in the Operating Partnership (“Common OP Unitholders”) receive an allocation of net income that is based on their respective ownership percentage of the Operating Partnership which is shown in our Consolidated Financial Statements as Non-controlling interests-Common OP Units. All significant intercompany balances and transactions have been eliminated in consolidation.

Certain 2014 amounts have been reclassified to conform to the 2015 presentation. These reclassifications had no material effect on our Consolidated Balance Sheets or Consolidated Statements of Income and Comprehensive Income.

(b) Identified Intangibles and Goodwill

As of September 30, 2015 and December 31, 2014, the gross carrying amounts of identified intangible assets and goodwill, a component of “Escrow deposits, goodwill and other assets, net” on our consolidated balance sheets, were approximately \$12.1 million. As of September 30, 2015 and December 31, 2014, this amount was comprised of approximately \$4.3 million of identified intangible assets and approximately \$7.8 million of goodwill. Accumulated amortization of identified intangible assets was approximately \$2.5 million and \$2.2 million as of September 30, 2015 and December 31, 2014, respectively. For each of the quarters ended September 30, 2015 and 2014, amortization expense for the identified intangible assets was approximately \$0.1 million. For the nine months ended September 30, 2015 and 2014, amortization expense for the identified intangible assets was approximately \$0.3 million.

(c) Restricted Cash

Cash as of September 30, 2015 and December 31, 2014, included approximately \$5.0 million of restricted cash for the payment of capital improvements, insurance or real estate taxes.

(d) Fair Value of Financial Instruments

Our financial instruments include notes receivable, accounts receivable, accounts payable, other accrued expenses, interest rate swaps and mortgage notes payable. We disclose the estimated fair value of our financial instruments according to a fair value hierarchy (Level 1, 2 and 3).

Our mortgage notes payable and term loan had a carrying value of approximately \$2.2 billion as of September 30, 2015 and December 31, 2014, and a fair value of approximately \$2.2 billion and \$2.3 billion as of September 30, 2015 and December 31, 2014, respectively. The fair value is measured using quoted prices and observable inputs from similar liabilities (Level 2). At September 30, 2015 and December 31, 2014, our cash flow hedge of interest rate risk included in accrued expenses and accounts payable was measured using quoted prices and observable inputs from similar assets and liabilities (Level 2). We consider our

own credit risk as well as the credit risk of our counterparties when evaluating the fair value of our derivative. The fair values of our notes receivable, accounts receivable, accounts payable, other accrued expenses and interest rate swaps approximate their carrying or contract values.

(e) Deferred Financing Costs, net

Deferred financing costs, net include fees and costs incurred to obtain long-term financing. The costs are being amortized over the terms of the respective loans on a basis that approximates level yield. Unamortized deferred financing fees are written-off when debt is retired before the maturity date. Upon amendment of the line of credit or refinancing of mortgage debt, unamortized deferred financing fees are accounted for in accordance with Codification Sub-Topic *Modifications and Extinguishments* (“FASB ASC 470-50-40”). Accumulated amortization for such costs was \$32.7 million and \$29.8 million at September 30, 2015 and December 31, 2014, respectively.

(f) Recent Accounting Pronouncements

In May 2014, the FASB issued (“ASU 2014-09”) *Revenue from Contracts with Customers*, which will replace most existing revenue recognition guidance in U.S. GAAP. The core principle of ASU 2014-09 is that an entity should recognize revenue for the transfer of goods or services equal to the amount that it expects to be entitled to receive for those goods or services. ASU 2014-09 requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments. ASU 2014-09 does not apply to lease contracts accounted for under ASC 840, Leases. Entities can transition to the standard either retrospectively or as a cumulative-effect adjustment as of the date of adoption. On July 9, 2015, the FASB deferred the effective date by one year to December 15, 2017 for annual reporting periods beginning after that date. The FASB will permit early adoption of the standard, but not before the original effective date of December 15, 2016. We are currently evaluating the impact, if any, the adoption of this standard will have on our consolidated financial statements.

In February 2015, the FASB issued (“ASU 2015-02”) *Consolidation (Topic 810): Amendments to the Consolidation Analysis*. ASU 2015-02 changes the analysis that a reporting entity must perform to determine whether it should consolidate certain types of legal entities. ASU 2015-02 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2015 and is to be applied retrospectively, with early adoption permitted. We are currently evaluating the impact, if any, of the adoption of ASU 2015-02 on our consolidated financial statements.

In April 2015, the FASB issued (“ASU 2015-03”) *Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*. ASU 2015-03 requires that debt issuance costs be deducted from the carrying value of the financial liability and not recorded as separate assets, classified as deferred financing costs. The recognition and measurement guidance for debt issuance costs are not affected by ASU 2015-03. In August 2015, the FASB issued (“ASU 2015-15”) *Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements*. ASU 2015-15 expands guidance provided in ASU 2015-03 and states that presentation of costs associated with securing a revolving line of credit as an asset is permitted, regardless of whether a balance is outstanding. The new standards are effective for annual reporting periods beginning after December 15, 2015, but early adoption is permitted. The adoption of ASU 2015-03 and ASU 2015-15 will only affect the presentation of our consolidated balance sheet.

Acquisitions

All acquisitions have been accounted for utilizing the acquisition method of accounting in accordance with FASB ASC 805 and, accordingly, the results of operations of acquired assets are included in the Consolidated Statements of Income and Comprehensive Income from the dates of acquisition. Certain purchase price adjustments may be made within one year following the acquisition and applied retroactively to the date of acquisition.

On June 26, 2015, we completed the acquisition of Miami Everglades, a 303-Site RV resort, located in Miami, Florida. The total purchase price of \$11.6 million was funded with available cash.

On February 9, 2015, we completed the acquisition of two properties, Bogue Pines, a 150-Site manufactured home community, and Whispering Pines, a 278-Site RV resort, both located in coastal North Carolina. The total purchase price of approximately \$12.3 million was funded with available cash.

During the year ended December 31, 2014, we acquired seven RV resorts collectively containing 3,868 Sites for a combined purchase price of approximately \$85.7 million. As a result of these acquisitions, we assumed approximately \$32.3 million of mortgage debt, excluding note premiums of approximately \$2.3 million. The remaining purchase price was funded with available

cash. We also exercised a purchase option and purchased land comprising a portion of our Colony Cove Property which was part of a portfolio of Properties acquired in 2011. The total purchase price of \$35.9 million was funded with available cash. In connection with the acquisition of the land, we terminated the ground lease related to the Property. During the quarter ended March 31, 2014, we received the final distribution of 51,290 shares of our common stock from the escrow funded by the seller.

The following table summarizes the estimated fair value of the assets acquired and liabilities assumed in the acquisitions for the nine months ended September 30, 2015 and December 31, 2014, which we determined using Level-2, for mortgage notes payable and other liabilities, and Level-3 inputs (amounts in thousands):

Dispositions and real estate held for disposition

On July 11, 2014, we received payment of approximately \$2.1 million from the Arizona Department of Transportation related to the value of certain property taken for state highway purposes at our Seyenna Vista property in Maricopa County, Arizona, of which \$0.9 million was in excess of our basis and recognized as a gain on sale of property in the third quarter of 2014.

As of September 30, 2015, we have no properties designated as held for disposition pursuant to FASB ASC 360-10-35.

Note 5 – Investment in Unconsolidated Joint Ventures

We recorded approximately \$3.6 million and \$3.8 million (each net of approximately \$0.8 million and \$0.7 million of depreciation expense, respectively) of equity in income from unconsolidated joint ventures for each of the nine months ended September 30, 2015 and 2014, respectively. We received approximately \$3.4 million and \$3.3 million in distributions from these joint ventures for the nine months ended September 30, 2015 and 2014, respectively. Approximately \$1.4 million and \$2.0 million of the distributions made to us, using proceeds generated by refinancing transactions, exceeded our basis in joint ventures and as such, were recorded as income from unconsolidated joint ventures for the nine months ended September 30, 2015 and 2014, respectively.

On February 12, 2015, we contributed approximately \$4.0 million to the ECHO JV which brought our total investment to \$10.0 million.

(a) The percentages shown approximate our economic interest as of September 30, 2015. Our legal ownership interest may differ.

(b) Voyager joint venture primarily consists of a 50% interest in Voyager RV Resort and 33% interest in the utility plant servicing the Property.

(c) During the quarter ended September 30, 2014, we received payment of \$0.1 million for the sale of our remaining 20% interest in the Time Shares Only joint venture.

Note 6 - Notes Receivable

In certain cases, we purchase loans made by others to finance the sales of homes to our customers (“Chattel Loans”). Our Chattel Loans receivable require monthly principal and interest payments and are collateralized by homes at certain of the Properties. As of September 30, 2015 and December 31, 2014, we had approximately \$18.3 million and \$18.9 million, respectively, of these Chattel Loans included in notes receivable. As of September 30, 2015, the Chattel Loans receivable had a stated per annum average rate of approximately 7.8%, with a yield of 21.7%, and had an average term remaining of approximately 11 years. These Chattel Loans are recorded net of allowances of approximately \$0.3 million as of September 30, 2015 and \$0.4 million as of December 31, 2014.

We also provide financing for non-refundable upgrades to existing right-to-use contracts (“Contracts Receivable”). As of September 30, 2015 and December 31, 2014, we had approximately \$18.0 million and \$18.2 million, respectively, of Contracts Receivable, net of allowances of approximately \$0.6 million. The Contracts Receivable have an average stated interest rate of 16.1% per annum, have a weighted average term remaining of approximately four years and require monthly payments of principal and interest.

Note 7 – Borrowing Arrangements

Mortgage Notes Payable

As of September 30, 2015 and December 31, 2014, we had outstanding mortgage indebtedness of approximately \$2.0 billion. The weighted average interest rate, including the impact of premium/discount amortization on this mortgage indebtedness, for the nine months ended September 30, 2015 was approximately 5.0% per annum. The debt bears interest at stated rates of 3.5% to 8.9% per annum and matures on various dates ranging from 2016 to 2040. The debt encumbered a total of 127 and 137 of our Properties as of September 30, 2015 and December 31, 2014, respectively, and the carrying value of such Properties was approximately \$2.2 billion and \$2.4 billion, respectively, as of such dates.

During the nine months ended September 30, 2015, as part of our previously announced refinancing plan, we closed on loans with total gross proceeds of \$395.3 million. The loans have a weighted average maturity of 21 years, carry a weighted average interest rate of 3.93% per annum and were secured by 26 manufactured home properties and RV resorts. Proceeds from the financings were used to retire by defeasance and prepayment approximately \$370.2 million of loans maturing at various times throughout 2015 and 2016, with a weighted average interest rate of 5.58% per annum, which were secured by 32 manufactured home properties and RV resorts. We incurred approximately \$17.0 million in early debt retirement expense related to these loans. We also paid off two maturing mortgage loans totaling approximately \$48.7 million, with a weighted average interest rate of 5.73% per annum, secured by one manufactured home property and three RV resorts.

Note 7 – Borrowing Arrangements (continued)

Term Loan

As of September 30, 2015 and December 31, 2014, our \$200.0 million Term Loan (the “Term Loan”) matures on January 10, 2020 and has an interest rate of LIBOR plus 1.35% to 1.95% per annum and, subject to certain conditions, may be prepaid at any time without premium or penalty. The spread over LIBOR is variable quarterly based on leverage measured quarterly throughout the loan term. The Term Loan contains customary representations, warranties, and negative and affirmative covenants, and provides for acceleration of principal and payment of all other amounts payable thereunder upon the occurrence of certain events of default. In connection with the Term Loan in 2014, we also entered into a three year LIBOR Swap Agreement (the “2014 Swap”) allowing us to trade the variable interest rate for a fixed interest rate on the Term Loan (See Note 8 to the Consolidated Financial Statements for further information on the accounting for the 2014 Swap).

Unsecured Line of Credit

As of September 30, 2015 and December 31, 2014, our unsecured Line of Credit (“LOC”) had a borrowing capacity of \$400.0 million, with the option to increase the borrowing capacity by \$100.0 million, subject to certain conditions, with no amounts outstanding as of those dates. The LOC bears interest at a rate of LIBOR plus 1.20% to 1.65%, requires an annual facility fee of 0.20% to 0.35% and matures on July 17, 2018, with an option to extend for one additional year, subject to certain conditions. The spread over LIBOR is variable quarterly based on leverage throughout the loan term. In 2014, we incurred commitment and arrangement fees of approximately \$3.5 million to enter into the LOC and extend the Term Loan.

As of September 30, 2015, we are in compliance in all material respects with the covenants in our borrowing arrangements.

Note 8 – Derivative Instruments and Hedging Activities

Cash Flow Hedges of Interest Rate Risk

In connection with our Term Loan, we entered into the 2014 Swap (see Note 7 to the Consolidated Financial Statements for information about the Term Loan related to the 2014 Swap) allowing us to trade the variable interest rate for a fixed interest rate on the Term Loan. The 2014 Swap fixes the underlying LIBOR rate on the Term Loan at 1.04% per annum for the first three years and matures on August 1, 2017. Based on the leverage as of September 30, 2015, our spread over LIBOR is 1.35% resulting in an estimated all-in interest rate of 2.39% per annum.

We have designated the 2014 Swap as a cash flow hedge. No gain or loss was recognized in the Consolidated Statements of Income and Comprehensive Income related to hedge ineffectiveness or to amounts excluded from effectiveness testing on our cash flow hedge during the quarters and nine months ended September 30, 2015 and 2014.

Amounts reported in accumulated other comprehensive loss on the Consolidated Balance Sheets related to derivatives are reclassified to interest expense as interest payments are made on our variable-rate debt. During the next twelve months, we estimate that an additional \$1.3 million will be reclassified as an increase to interest expense. This estimate may be subject to change as the underlying LIBOR rate changes.

Derivative Instruments and Hedging Activities

The table below presents the fair value of our derivative financial instrument as well as our classification on our Consolidated Balance Sheets as of September 30, 2015 and December 31, 2014 (amounts in thousands):

Note 10 – Equity Incentive Awards

Stock-based compensation expense, reported in “General and administrative” on the Consolidated Statements of Income and Comprehensive Income, for the quarters ended September 30, 2015 and 2014 was approximately \$2.3 million and \$2.6 million, respectively, and for the nine months ended September 30, 2015 and 2014 was approximately \$6.3 million and \$5.0 million, respectively.

Our 2014 Equity Incentive Plan (the “2014 Plan”) was adopted by our Board of Directors on March 11, 2014 and approved by our stockholders on May 13, 2014. Pursuant to the 2014 Plan, our officers, directors, employees and consultants may be awarded (i) shares of common stock (“Restricted Stock Grants”), (ii) options to acquire shares of common stock (“Options”), including non-qualified stock options and incentive stock options within the meaning of Section 422 of the Internal Revenue Code, and (iii) other forms of equity awards, subject to conditions and restrictions determined by the Compensation, Nominating, and Corporate Governance Committee of our Board of Directors (the “Compensation Committee”). The Compensation Committee will determine the vesting schedule, if any, of each Restricted Stock Grant or Option and the term of each Option, which term shall not exceed ten years from the date of grant. Shares that do not vest are forfeited. Dividends paid on restricted stock are not returnable, even if the underlying stock does not entirely vest. A maximum of 3,750,000 shares of common stock are available for grant under the 2014 Plan. As of September 30, 2015, 3,405,794 shares remained available for grant.

Grants under the 2014 Plan are made by the Compensation Committee, which determines the individuals eligible to receive awards, the types of awards, and the terms, conditions and restrictions applicable to any award.

Grants Issued

On June 1, 2015, we awarded Restricted Stock Grants for 3,000 shares of common stock at a fair market value of approximately \$0.2 million to a certain member of our senior management. This Restricted Stock Grant will vest on December 31, 2015.

Note 10 – Equity Incentive Awards (continued)

On May 12, 2015, we awarded Restricted Stock Grants for 29,440 shares of common stock at a fair market value of approximately \$1.6 million to certain members of our Board of Directors for services as Director rendered for the remainder of 2015. One-third of the shares of restricted common stock covered by these awards will vest on each of November 12, 2015, May 12, 2016, and May 12, 2017.

On February 2, 2015, we awarded Restricted Stock Grants for 78,000 shares of common stock at a fair market value of approximately \$4.3 million to certain members of our senior management. These Restricted Stock Grants will vest on December 31, 2015.

On February 2, 2015, we awarded Restricted Stock Grants for 47,100 shares of common stock at a fair market value of approximately \$2.6 million to certain members of our Board of Directors for services to be rendered in 2015. One-third of the shares of restricted common stock covered by these awards will vest on each of December 31, 2015, December 31, 2016, and December 31, 2017.

The fair market value of our restricted stock grants is recorded as compensation expense and paid in capital over the vesting period.

Note 11 – Long-Term Cash Incentive Plan

On January 24, 2013, our Compensation Committee approved a Long-Term Cash Incentive Plan Award (the “2013 LTIP”) to provide a long-term cash bonus opportunity to certain members of our management. The 2013 LTIP was approved by the Compensation Committee pursuant to the authority set forth in the Long-Term Cash Incentive Plan approved by our Board of Directors on May 15, 2007. The total cumulative payment for all participants (the “Eligible Payment”) is based upon certain performance conditions being met over a three year period ending December 31, 2015.

The Compensation Committee has responsibility for administering the 2013 LTIP and may use its reasonable discretion to adjust the performance criteria or Eligible Payments to take into account the impact of any major or unforeseen transaction or event. Our executive officers are not participants in the 2013 LTIP. The Eligible Payment will be paid in cash upon completion of our annual audit for the 2015 fiscal year and upon satisfaction of the vesting conditions as outlined in the 2013 LTIP and, including employer costs, is currently estimated to be approximately \$5.1 million. As of September 30, 2015, we had accrued compensation expense of approximately \$4.8 million for the 2013 LTIP, including approximately \$1.0 million and \$1.4 million in the nine months ended September 30, 2015 and 2014, respectively.

The amount accrued for the 2013 LTIP reflects our evaluation of the 2013 LTIP based on forecasts and other available information and is subject to performance in line with forecasts and final evaluation and determination by the Compensation Committee. There can be no assurances that our estimates of the probable outcome will be representative of the actual outcome.

Note 12 - Commitments and Contingencies

California Rent Control Litigation

As part of our effort to realize the value of our Properties subject to rent control, we previously initiated lawsuits against certain localities in California with the goal of achieving a level of regulatory fairness in California’s rent control jurisdictions, and in particular those jurisdictions that prohibit increasing rents to market upon turnover. Such regulations allow tenants to sell their homes for a price that includes a premium above the intrinsic value of the homes. The premium represents the value of the future discounted rent-controlled rents, which is fully capitalized into the prices of the homes sold. In our view, such regulations result in a transfer to the tenants of the value of our land, which would otherwise be reflected in market rents. We have discovered through the litigation process that certain municipalities considered condemning our Properties at values well below the value of the underlying land. In our view, a failure to articulate market rents for Sites governed by restrictive rent control would put us at risk for condemnation or eminent domain proceedings based on artificially reduced rents. Such a physical taking, should it occur, could represent substantial lost value to stockholders. We are cognizant of the need for affordable housing in the jurisdictions, but assert that restrictive rent regulation does not promote this purpose because tenants pay to their sellers as part of the purchase price of the home all the future rent savings that are expected to result from the rent control regulations, eliminating any supposed improvement in the affordability of housing. In a more well-balanced regulatory environment, we would receive market rents that would eliminate the price premium for homes, which would trade at or near their intrinsic value. Such efforts have included the following matters:

We sued the City of San Rafael on October 13, 2000 in the U.S. District Court for the Northern District of California, challenging its rent control ordinance on constitutional grounds. While the trial court found the rent control ordinance unconstitutional, the United States Court of Appeals for the Ninth Circuit reversed the trial court and ruled that the ordinance had not unconstitutionally taken our property. On September 3, 2013, we filed a petition for review by the U.S. Supreme Court, which

Note 12 – Commitments and Contingencies (continued)

was denied.

On January 31, 2012, we sued the City of Santee in the United States District for the Southern District of California challenging its rent control ordinance on constitutional grounds. On September 26, 2013, we entered a settlement agreement with the City pursuant to which we are able to increase Site rents at the Meadowbrook community through January 1, 2034 as follows: (a) a one-time 2.5% rent increase on all Sites in January 2014; plus (b) annual rent increases of 100% of the consumer price index (CPI) beginning in 2014; and (c) a 10% increase in the rent on a site upon turnover of that site. Absent the settlement, the rent control ordinance limited us to annual rent increases of at most 70% of CPI with no increases on turnover of a site.

Colony Park

On December 1, 2006, a group of tenants at our Colony Park Property in Ceres, California filed a complaint in the California Superior Court for Stanislaus County alleging that we had failed to properly maintain the Property and had improperly reduced the services provided to the tenants, among other allegations. We answered the complaint by denying all material allegations and filed a counterclaim for declaratory relief and damages. The case proceeded in Superior Court because our motion to compel arbitration was denied and the denial was upheld on appeal. Trial of the case began on July 27, 2010. After just over three months of trial in which the plaintiffs asked the jury to award a total of approximately \$6.8 million in damages, the jury rendered verdicts awarding a total of less than \$44,000 to six out of the 72 plaintiffs, and awarding nothing to the other 66 plaintiffs. The plaintiffs who were awarded nothing filed a motion for a new trial or alternatively for judgment notwithstanding the jury's verdict, which the Court denied on February 14, 2011. All but three of the 66 plaintiffs to whom the jury awarded nothing appealed. Oral argument in the appeal was held on September 19, 2013 and the matter was taken under submission by the California Court of Appeal.

By orders entered on December 14, 2011, the Superior Court awarded us approximately \$2.0 million in attorneys' fees and other costs jointly and severally against the plaintiffs to whom the jury awarded nothing, and awarded no attorneys' fees or costs to either side with respect to the six plaintiffs to whom the jury awarded less than \$44,000. Plaintiffs filed an appeal from the approximately \$2.0 million award of our attorneys' fees and other costs. Oral argument in that appeal was also held on September 19, 2013. On December 3, 2013, the Court of Appeal issued a partially published opinion that rejected all of plaintiffs' claims on appeal except one, relating to whether the park's rules prohibited the renting of spaces to recreational vehicles. The Court of Appeal reversed the judgment on the recreational vehicle issue and remanded for further proceedings regarding that issue. Because the judgment was reversed, the award of attorney's fees and other costs was also reversed. Both sides filed rehearing petitions with the Court of Appeal. On December 31, 2013, the Court of Appeal granted the defendants' rehearing petition and ordered the parties to submit supplemental briefing, which the parties did. On March 10, 2014, the Court of Appeal issued a new partially published opinion in which it again rejected all of the plaintiffs' claims on appeal except the one relating to whether the park's rules prohibited the renting of spaces to recreational vehicles, reversing the judgment on that issue and remanding it for further proceedings, and accordingly vacating the award of attorney's fees and other costs.

As of result of a settlement we reached with the plaintiffs remaining in the litigation, pursuant to which among other provisions the parties agreed to mutually release all of their claims in the litigation without any payment by us, on September 28, 2015 the plaintiffs filed with the Superior Court a request for dismissal with prejudice of the entire action.

California Hawaiian

On April 30, 2009, a group of tenants at our California Hawaiian Property in San Jose, California filed a complaint in the California Superior Court for Santa Clara County, Case No. 109CV140751, alleging that we have failed to properly maintain the Property and have improperly reduced the services provided to the tenants, among other allegations. We moved to compel arbitration and stay the proceedings, to dismiss the case, and to strike portions of the complaint. By order dated October 8, 2009, the Court granted our motion to compel arbitration and stayed the court proceedings pending the outcome of the arbitration. The plaintiffs filed with the California Court of Appeal a petition for a writ seeking to overturn the trial court's arbitration and stay orders. On May 10, 2011, the Court of Appeal granted the petition and ordered the trial court to vacate its order compelling arbitration and to restore the matter to its litigation calendar for further proceedings. On May 24, 2011, we filed a petition for rehearing requesting the Court of Appeal to reconsider its May 10, 2011 decision. On June 8, 2011, the Court of Appeal denied the petition for rehearing. On June 16, 2011, we filed with the California Supreme Court a petition for review of the Court of Appeal's decision. On August 17, 2011, the California Supreme Court denied the petition for review.

The trial commenced on January 27, 2014. On April 14-15, 2014, the jury entered verdicts against our Operating Partnership of approximately \$15.3 million in compensatory damages and approximately \$95.8 million in punitive damages. On October 6, 2014, we filed a motion for a new trial and a motion for partial judgment notwithstanding the jury's verdict. On December 5, 2014, after briefing and a hearing on those motions, the trial court entered an order granting us a new trial on the issue of damages while upholding the jury's determination of liability. As grounds for the ruling, the court cited excessive damages and insufficiency of

Note 12 – Commitments and Contingencies (continued)

the evidence to support the verdict as to the amount of damages awarded by the jury. The Court's ruling overturned the April 2014 verdicts of \$15.3 million in compensatory damages and \$95.8 million in punitive damages. On January 28, 2015, we and the plaintiffs each served notices of appeal from the trial court's December 5, 2014 order. The Court of Appeal has issued an order setting the briefing sequence and has ordered commencement of the briefing. We intend to continue to vigorously defend ourselves in this litigation.

At September 30, 2015, based on the information available to us, a material loss was neither probable nor estimable. We have taken into consideration the events that have occurred after the reporting period and before the financial statements were issued. We anticipate a lengthy time period to achieve resolution of this case.

Monte del Lago

On February 13, 2015, a group of tenants at our Monte del Lago Property in Castroville, California filed a complaint in the California Superior Court for Monterey County, Case No. M131016, alleging that we have failed to properly maintain the Property and have improperly reduced the services provided to the tenants, among other allegations. We believe the allegations are without merit and intend to vigorously defend ourselves in the lawsuit. On May 13, 2015, we filed a motion to compel arbitration with respect to certain plaintiffs and to stay the litigation pending the conclusion of the arbitration proceedings. Hearings on the motion were held on July 17, 2015 and September 18, 2015. On October 7, 2015, the court denied our motion.

Santiago Estates

On September 4, 2015, a group of tenants at our Santiago Estates Property in Sylmar, California filed a complaint in the California Superior Court for Los Angeles County, Case No. BC593831, alleging that we have failed to properly maintain the Property and have improperly reduced the services provided to the tenants, among other allegations. We believe the allegations are without merit and intend to vigorously defend ourselves in the lawsuit.

Monterey County District Attorney's Civil Investigation Relating to Asbestos

In November 2014, we received a civil investigative subpoena from the office of the District Attorney for Monterey County, California ("MCDA"), seeking information relating to, among other items, statewide compliance with asbestos and hazardous waste regulations dating back to 2005 primarily in connection with demolition and renovation projects performed by third-party contractors at our California Properties. We responded by providing the information required by the subpoena.

On October 20, 2015, we attended a meeting with representatives of the MCDA and certain other District Attorney's offices at which the MCDA reviewed the preliminary results of their investigation including, among other things, (i) alleged violations of asbestos-related regulations associated with approximately 200 historical demolition and renovation projects in California; (ii) potential exposure to civil penalties and cost recovery; and (iii) next steps with respect to a negotiated resolution of the alleged violations. No legal proceedings have been instituted to date. We are assessing the allegations and the underlying facts and at this time we are unable to predict the outcome of the investigation or reasonably estimate any possible loss.

Other

In addition to legal matters discussed above, we are involved in various other legal and regulatory proceedings ("Other Proceedings") arising in the ordinary course of business. The Other Proceedings include, but are not limited to, notices, consent decrees, information requests, and additional permit requirements and other similar enforcement actions by governmental agencies relating to our water and wastewater treatment plants and other waste treatment facilities. Additionally, in the ordinary course of business, our operations are subject to audit by various taxing authorities. Management believes these Other Proceedings taken together do not represent a material liability. In addition, to the extent any such proceedings or audits relate to newly acquired Properties, we consider any potential indemnification obligations of sellers in our favor.

Note 13 – Reportable Segments

Operating segments are defined as components of an entity for which separate financial information is available that is evaluated regularly by the chief operating decision maker. The chief operating decision maker evaluates and assesses performance on a monthly basis. Segment operating performance is measured on Net Operating Income ("NOI"). NOI is defined as total operating revenues less total operating expenses. Segments are assessed before interest income, depreciation and amortization of in-place leases.

Note 13 - Segment Reporting (continued)

We have two reportable segments which are: (i) Property Operations and (ii) Home Sales and Rentals Operations. The Property Operations segment owns and operates land lease Properties and the Home Sales and Rentals Operations segment purchases, sells and leases homes at the Properties.

All revenues are from external customers and there is no customer who contributed 10% or more of our total revenues during the nine months ended September 30, 2015 or 2014.

The following tables summarize our segment financial information for the quarters and nine months ended September 30, 2015 and 2014 (amounts in thousands):

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview and Outlook

We are a self-administered, self-managed, real estate investment trust ("REIT") with headquarters in Chicago, Illinois. We are a fully integrated owner and operator of lifestyle-oriented properties ("Properties"). We lease individual developed areas ("Sites") with access to utilities for placement of factory built homes, cottages, cabins or recreational vehicles ("RVs"). Customers may lease individual Sites or enter right-to-use contracts providing the customer access to specific Properties for limited stays. As of September 30, 2015, we owned or had an ownership interest in a portfolio of 387 Properties located throughout the United States and Canada containing 143,895 Sites. These Properties are located in 32 states and British Columbia (with the number of Properties in each state or province shown parenthetically) as follows: Florida (122), California (49), Arizona (42), Texas (17), Pennsylvania (15), Washington (14), Colorado (10), North Carolina (10), Wisconsin (10), Oregon (9), Delaware (7), Indiana (7), Nevada (7), New York (7), Virginia (7), New Jersey (6), Illinois (5), Maine (5), Massachusetts (5), Idaho (4), Michigan (4), Minnesota (4), New Hampshire (3), South Carolina (3), Utah (3), Maryland (2), North Dakota (2), Ohio (2), Tennessee (2), Alabama (1), Connecticut (1), Kentucky (1), and British Columbia (1).

This report includes certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. When used, words such as "anticipate," "expect," "believe," "project," "intend," "may be" and "will be" and similar words or phrases, or the negative thereof, unless the context requires otherwise, are intended to identify forward-looking statements and may include without limitation, information regarding our expectations, goals or intentions regarding the future, and the expected effect of recent acquisitions on us. These forward-looking statements are subject to numerous assumptions, risks and uncertainties, including, but not limited to:

- our ability to control costs, real estate market conditions, the actual rate of decline in customers, the actual use of Sites by customers and our success in acquiring new customers at our Properties (including those that we may acquire);
- our ability to maintain historical or increase future rental rates and occupancy with respect to Properties currently owned or that we may acquire;
- our ability to retain and attract customers renewing, upgrading and entering right-to-use contracts;
- our assumptions about rental and home sales markets;
- our ability to manage counter-party risk;
- in the age-qualified Properties, home sales results could be impacted by the ability of potential home buyers to sell their existing residences as well as by financial, credit and capital markets volatility;
- results from home sales and occupancy will continue to be impacted by local economic conditions, lack of affordable manufactured home financing and competition from alternative housing options including site-built single-family housing;
- impact of government intervention to stabilize site-built single family housing and not manufactured housing;
- effective integration of recent acquisitions and our estimates regarding the future performance of recent acquisitions;
- the completion of future transactions in their entirety, if any, and timing and effective integration with respect thereto;
- unanticipated costs or unforeseen liabilities associated with recent acquisitions;
- ability to obtain financing or refinance existing debt on favorable terms or at all;
- the effect of interest rates;
- the dilutive effects of issuing additional securities;
- the effect of accounting for the entry of contracts with customers representing a right-to-use the Properties under the Codification Topic "Revenue Recognition;"
- the outcome of pending or future lawsuits filed against us, including those disclosed in our filings with the Securities and Exchange Commission, by tenant groups seeking to limit rent increases and/or seeking large damage awards for our alleged failure to properly maintain certain Properties or other tenant related matters, such as the case currently pending in the California Court of Appeal, Sixth Appellate District, Case No. H041913, involving our California Hawaiian manufactured home property, including any further proceedings on appeal or in the trial court; and
- other risks indicated from time to time in our filings with the Securities and Exchange Commission.

These forward-looking statements are based on management's present expectations and beliefs about future events. As with any projection or forecast, these statements are inherently susceptible to uncertainty and changes in circumstances. We are under no obligation to, and expressly disclaim any obligation to, update or alter our forward-looking statements whether as a result of such changes, new information, subsequent events or otherwise.

Management's Discussion (continued)

The following chart lists the Properties acquired or invested in since January 1, 2014 through September 30, 2015.

<u>Property</u>	<u>Transaction Date</u>	<u>Sites</u>
Total Sites as of January 1, 2014		139,126

Net sites added (reconfigured) in 2014		119
Net sites added (reconfigured) in 2015		51
Total Sites as of September 30, 2015		143,895

Our gross investment in real estate has increased approximately \$71.0 million to \$4,459 million as of September 30, 2015 from \$4,388 million as of December 31, 2014 primarily due to increased capital expenditures as well as the acquisition of three Properties: Bogue Pines, Whispering Pines and Miami Everglades.

We actively seek to acquire and are currently engaged in various stages of negotiations relating to the possible acquisition of additional properties, which may include contracts outstanding to acquire such properties that are subject to the satisfactory completion of our due diligence review.

Occupancy in our Properties, as well as our ability to increase rental rates, directly affects revenues. Our revenue streams are predominantly derived from customers renting our Sites on a long-term basis. Some revenue streams are subject to seasonal fluctuations and, accordingly, quarterly interim results may not be indicative of full fiscal year results.

The following table shows the breakdown of our Sites by type. Our community Sites and annual resort Sites are leased on an annual basis. Seasonal Sites are leased to customers generally for three to six months. Transient Sites are leased to customers on a short-term basis. The revenue from seasonal and transient Sites is generally higher during the first and third quarters. We expect to service over 100,000 customers at our transient Sites in 2015 and we consider this revenue stream to be our most volatile as it is subject to weather conditions and other factors affecting the marginal RV customer's vacation and travel preferences. Sites designated as right-to-use Sites are primarily utilized to service the approximately 102,000 customers who have entered right-to-use contracts. We also have interests in joint venture Properties for which revenue is classified as Equity in income from unconsolidated joint ventures in the Consolidated Statements of Income and Comprehensive Income.

	Total Sites as of September 30, 2015
Community Sites	70,100
Resort Sites:	
Annual	25,800
Seasonal	10,400
Transient	10,400
Right-to-use ⁽¹⁾	24,100
Joint Ventures ⁽²⁾	3,100
	143,900

⁽¹⁾ Includes approximately 5,400 Sites rented on an annual basis.

⁽²⁾ Joint ventures have approximately 2,200 annual Sites, approximately 400 seasonal Sites and approximately 500 transient Sites.

Our Core Portfolio ("Core Portfolio") consists of our Properties owned and operated for the same period in 2015 and 2014. For the quarter ended September 30, 2015, property operating revenues in our Core Portfolio, excluding deferrals, were up 4.1% and property operating expenses in our Core Portfolio, excluding deferrals and property management, were up 2.8%, resulting in an increase in Core net operating income before deferrals and property management of 5.0%.

A significant portion of our rental agreements on community Sites have rent increases that are directly or indirectly connected to published CPI statistics that are issued from June through September of the year prior to the increase effective date.

Management's Discussion (continued)

Twenty-seven properties, including 19 of our 49 California Properties, our seven Delaware Properties and one of our five Massachusetts Properties are affected by state and local rent control regulations. The impact of the rent control regulations is to limit our ability to implement rent increases based on prevailing market conditions. The regulations generally permit us to increase rates by a percentage of the increase in the CPI. The limit on rent increases may range from 60% to 100% of CPI with certain maximum limits depending on the jurisdiction.

In the years following the disruption in the site-built housing market, our home sales business was negatively affected by our customers' inability to sell their existing site-built homes and relocate to their retirement destination. As a result, we focused on home rental rather than sales as our primary source of occupancy upon turnover. As we managed and expanded our portfolio of rental homes, we placed homes in communities where we believed we could successfully sell homes as the market improved. We continue to allocate capital to home purchases based on our assessment of market conditions and emphasize home sales in that assessment. We continue to see population growth in our key markets, increased access to distribution channels for our products, and a renewed willingness by our customers to commit to us for a longer period of time. We have also seen a decrease in homes coming back to us, which generally means that our residents have the opportunity to resell their homes.

We continue to focus on the quality of occupancy growth by increasing the number of homeowners in our Core portfolio. As of September 30, 2015, we increased occupancy in our Core Portfolio by 380 sites, with an increase in homeowner occupancy of 791 sites compared with occupancy at September 30, 2014.

In the ordinary course of business, we acquire used homes from customers through purchase, foreclosure of a lien, or abandonment. In a vibrant home sales market, used homes may be sold in place or removed from sites and replaced with new homes. This can result in fewer homes acquired through abandonment. Used homes may also be rented either in the condition received or after warranted rehabilitation. While we continue to focus on selling homes, we continue to evaluate rental units, and based on market conditions, we expect to invest in additional new homes for customer rentals.

Since 2013, we have experienced an increase in the sales volume of new and used homes in our communities. We attribute this increase to various factors including management's focus on increasing the number of homeowners within our communities, changes to incentive structures for our on-site personnel to emphasize home sales rather than rentals and willingness of an increasing number of customers to commit their capital to purchase a home in our communities. New home sales in the manufactured home communities in our Core Portfolio during the nine months ended September 30, 2015 increased by 67 new homes over the same period in the prior year. The recent new home sales have been primarily in our California, Colorado and Florida communities (see the Home Sales Operations tables in the sections below for additional detail regarding our home sales activity.)

During 2013 we formed a joint venture, ECHO Financing, LLC (the "ECHO JV"), with a home manufacturer to buy and sell homes, as well as to offer another financing option to purchasers of homes at our Properties. The ECHO JV may also rent homes to customers in our communities. In the manufactured housing industry, chattel financing options available today include community owner funded programs or third party lender programs that provide subsidized financing to customers and require the community owner to provide a guarantee for customer defaults. Third party lender programs have stringent underwriting criteria, sizable down payment requirements, short loan amortization and high interest rates.

As of September 30, 2015, we had 4,952 occupied rental homes in our manufactured home communities. For the quarters ended September 30, 2015 and 2014, home rental program net operating income was approximately \$8.1 million and \$8.9 million, respectively, net of rental asset depreciation expense of approximately \$2.7 million and \$2.8 million, respectively. Approximately \$9.2 million and \$9.8 million of home rental operations revenue was included in community base rental income for the quarters ended September 30, 2015 and 2014, respectively. The net operating income and rental asset depreciation expense does not include the revenue and expense associated with our ECHO JV (see the Rental Operations tables in the sections below for additional detail regarding our rental activity.)

For the nine months ended September 30, 2015 and 2014, home rental program net operating income was approximately \$24.9 million and \$27.3 million, respectively, net of rental asset depreciation expense of approximately \$8.1 million and \$8.3 million, respectively. Approximately \$27.7 million and \$29.8 million of rental operations revenue was included in community base rental income for the nine months ended September 30, 2015 and 2014, respectively. We believe at this time we compete effectively with other types of rentals (i.e., apartments). We continue to evaluate home rental operations and expect to continue to invest in additional units.

In our RV resorts, we are focused on engaging with our existing customers and providing them the lifestyle they seek as well as attracting additional customers interested in our Properties. We continue to experience growth in our annual revenues as a result of our ability to increase rental rates and occupancy. Our third quarter Core Portfolio annual revenues were 5.9% higher than the third quarter of last year. We believe our customer base is loyal and engaged in the lifestyle we offer at our Properties. We have annual customers who have stayed with us for more than ten years and our member base includes members who have camped with us for more than twenty years. Our social media presence has increased within this member base.

Management's Discussion (continued)

For our membership based RV resorts, we sell low-cost membership products that focus on the installed base of approximately nine million RV owners. Such products include right-to-use contracts that entitle the customer to use certain Properties. We are offering a Thousand Trails Camping Pass ("TTC") (formerly Zone Park Pass), which can be purchased for one to five geographic areas of the United States and requires an annual payment of \$545. A single zone TTC requires no additional upfront payment while additional zones may be purchased for modest additional upfront payments. Since the introduction of low-cost membership products in 2010, we have entered into approximately 76,600 TTCs. For the nine months ended September 30, 2015, we entered into approximately 20,700 TTCs, or a 39.9% increase from approximately 14,800 TTCs for the nine months ended September 30, 2014. Of the 20,700 TTCs activated during the nine months ended September 30, 2015, approximately 10,200 were sold to dues paying members and the remainder were activated through select RV dealers.

In 2012, we initiated a program with RV dealers to feature our TTC as part of the dealers' sales and marketing efforts. We provide the dealer with a TTC membership to give to their customers in connection with the purchase of an RV. No cash is received from the member during the first year of membership for memberships activated through the RV dealer program. Since inception, we have activated 26,296 TTCs through the RV dealer program. Our renewal rate for these RV dealer memberships is approximately 18.6%.

Existing customers are eligible to upgrade their right-to-use contract from time-to-time. An upgrade is distinguishable from a new right-to-use contract that a customer would enter by, depending on the type of upgrade, offering (1) increased length of consecutive stay by 50% (i.e., up to 21 days); (2) ability to make earlier advance reservations; (3) discounts on rental units; (4) access to additional Properties, which may include use of Sites at non-membership RV resorts and (5) membership in discount travel programs. Each upgrade contract requires a nonrefundable upfront payment. We finance the nonrefundable upfront payment for certain customers.

Critical Accounting Policies and Estimates

Refer to the 2014 Form 10-K for a discussion of our critical accounting policies, which includes impairment of real estate assets and investments, revenue recognition and business combinations. There have been no changes to these policies during the nine months ended September 30, 2015.

Supplemental Measures

Management's discussion and analysis of financial condition and results of operations include certain non-GAAP financial measures that in management's view of the business we believe are meaningful as they allow the investor the ability to understand key operating details of our business both with and without regard to certain accounting conventions or items that may not always be indicative of recurring annual cash flow of the portfolio. These non-GAAP financial measures as determined and presented by us may not be comparable to similarly titled measures reported by other companies and include Income from property operations, Funds from Operations ("FFO") and Normalized Funds from Operations ("Normalized FFO").

Income from property operations represents rental income, utility income and right-to-use income less property operating and maintenance, real estate taxes, sales and marketing, and property management expenses. We believe that Income from property operations is helpful to investors and analysts as a direct measure of the actual operating results of our manufactured home and RV communities. A discussion of FFO, Normalized FFO and a reconciliation to net income are included in the presentation of FFO following our "Results of Operations."

Income from Property Operations

The following table summarizes certain financial and statistical data for the Core Portfolio and the total portfolio for the quarters ended September 30, 2015 and 2014 (amounts in thousands). The Core Portfolio may change from time-to-time depending on acquisitions, dispositions and significant transactions or unique situations. The Core Portfolio in this Form 10-Q includes all Properties acquired prior to December 31, 2013 and which we have owned and operated continuously since January 1, 2014. Core Portfolio growth percentages exclude the impact of GAAP deferrals of upfront payments from right-to-use contracts and related commissions.

⁽¹⁾ Non-GAAP measure.

The \$3.8 million, or 3.6%, increase in Core Portfolio community base rental income primarily reflects a 3.0% growth from rate increases and a 0.6% growth from occupancy gains. The average monthly base rent per site increased to approximately \$570 in 2015 from approximately \$554 in 2014. The average occupancy increased to 92.8% in 2015 from 92.3% in 2014. The increase in Core property operating and maintenance expenses was primarily due to increased repair and maintenance expenses driven by certain storm events, water hauling costs, higher cabin rental maintenance as well as general maintenance supplies.

The decrease in rental home income and increase in rental home operating and maintenance are discussed in further detail in the Rental Operations table below.

Resort base rental income is comprised of the following (amounts in thousands):

	Core Portfolio				Total Portfolio

Right-to-use annual payments are flat to the third quarter of 2014. Lower commissions driven by fewer TTCs sold during the quarter by the in-park and call center sales' teams was offset by growth in the low-cost RV dealer and online channels. Right-to-use contracts current period, gross, net of sales and marketing, gross, decreased as a result of lower upgrade sales by our third

party sales agent. During the third quarter of 2015 there were 798 upgrade sales with an average price per sale of \$4,861. This compares to 920 upgrade sales with an average price per sale of \$4,531 for the third quarter of 2014.

The following table summarizes the growth rate percentages excluding Property management expense, Right-to-use contracts current period, gross and Sales and marketing, gross (amounts in thousands):

The increase in total portfolio income from property operations is primarily due to increases in Core community base rental income, Core resort base rental income, the contribution from property operations related to the 2014 and 2015 acquisitions as well as increased Utility and other income. The increase is partially offset by an overall increase in expenses, with the most significant increases relating to utility, repair and maintenance and payroll expenses.

⁽²⁾ Total new home sales volume includes home sales from our ECHO JV for the quarters ended September 30, 2015 and 2014, respectively.

The decrease in income from home sales operations and other is primarily due to lower gross profits from new home sales due to a decrease in sales in the California region where we have larger homes that carry a higher average sales price. Also increased home selling expenses and lower income from ancillary services, which include retail sales at various Properties, contributed to the decrease.

⁽¹⁾ Approximately \$9.2 million and \$9.8 million for the quarters ended September 30, 2015 and 2014, respectively, of Site rental income are included in Community base rental income in the Income from Property Operations table. The remainder of home rental income is included in Rental home income in the Income from Property Operations table.

⁽²⁾ Included in depreciation on real estate and other costs in the Consolidated Statements of Income and Comprehensive Income.

⁽³⁾ New home cost basis does not include the costs associated with our ECHO JV. Our investment in the ECHO JV was \$10.3 million and \$6.2 million at September 30, 2015 and 2014, respectively.

⁽⁴⁾ Includes 72 and 15 homes rented through our ECHO JV during the quarter ended September 30, 2015 and 2014, respectively.

The decrease in income from rental operations is primarily due to a decrease in the number of occupied rental units, primarily used rental units.

Other Income and Expenses

The following table summarizes other income and expenses for the quarters ended September 30, 2015 and 2014 (amounts in thousands, expenses shown as negative).

Total other income and expenses, net	\$ (59,585)	\$ (66,460)	\$ 6,875	10.3 %

Depreciation on real estate and rental homes increased primarily due to the acquisitions that occurred during the third quarter of 2014 (see Note 4 in the Notes to the Consolidated Financial Statements for additional detail regarding our recent acquisition activity).

Early debt retirement decreased due to the \$5.1 million fee associated with the early retirement of the loan secured by our Colony Cove community incurred in 2014.

A decrease in secured debt and lower weighted average interest rates contributed to the decrease in interest and related amortization.

⁽¹⁾ Non-GAAP measure.

The \$10.4 million, or 3.3%, increase in Core Portfolio community base rental income primarily reflects a 2.8% growth from rate increases and a 0.5% growth from occupancy gains. The average monthly base rent per site increased to approximately \$567 in 2015 from approximately \$552 in 2014. The average occupancy increased to 92.5% in 2015 from 92.2% in 2014. The increase in Core property operating and maintenance expenses was primarily due to increased repair and maintenance expenses driven by certain storm events, higher cabin rental maintenance, and general maintenance supplies.

The decrease in rental home income and rental home operating and maintenance are discussed in further detail in the Rental Operations table below.

Resort base rental income is comprised of the following (amounts in thousands):

	Core Portfolio				Total Portfolio			
	2015	2014	Variance	% Change	2015	2014	Variance	% Change

The 1.8% decrease in right-to-use annual payments is primarily due to a decrease in profit recovery and late fees. Right-to-use contracts current period, gross, net of sales and marketing, gross, decreased as a result of lower upgrade sales by our third party sales agent. During the nine months ended September 30, 2015 there were 2,152 upgrade sales with an average price per sale of \$4,754. This compares to 2,239 upgrade sales with an average price per sale of \$4,696 for the nine months ended September 30, 2014.

Management's Discussion (continued)

The following table summarizes the growth rate percentages excluding Property management expense, Right-to-use contracts current period, gross and Sales and marketing, gross (amounts in thousands):

	Core Portfolio				Total Portfolio

The increase in total portfolio income from property operations is primarily due to increases in Core resort base rental income, Core community base rental income, the contribution from property operations related to the 2014 and 2015 acquisitions as well as increased utility and other income. This increase is partially offset by an overall increase in expenses, with the most significant increases relating to repair and maintenance, payroll, and utility expenses.

⁽¹⁾ New home sales gross revenues and costs of new home sales does not include the revenues and costs associated with our ECHO JV.

⁽²⁾ Total new home sales volume includes home sales from our ECHO JV for the nine months ended September 30, 2015 and 2014, respectively.

The decrease in income from home sales operations and other is primarily due to lower gross profits from new home sales due to a decrease in sales in the California region where we have larger homes that carry a higher average sales price. Also increased home selling expenses offset by increased income from ancillary services, which include retail sales at various Properties.

Number of occupied rentals – used, end of period	2,876	3,276	(400)	(12.2)%

⁽¹⁾ Approximately \$27.7 million and \$29.8 million for the nine months ended September 30, 2015 and 2014, respectively, of Site rental income are included in Community base rental income in the Income from Property Operations table. The remainder of home rental income is included in Rental home income in the Income from Property Operations table.

⁽²⁾ Included in depreciation on real estate and other costs in the Consolidated Statements of Income and Comprehensive Income.

⁽³⁾ New home cost basis does not include the costs associated with our ECHO JV. Our investment in the ECHO JV was \$10.3 million and \$6.2 million at September 30, 2015 and 2014, respectively.

⁽⁴⁾ Includes 72 and 15 homes rented through our ECHO JV in 2015 and 2014, respectively.

The decrease in income from rental operations is primarily due to a decrease in the number of occupied rental units, primarily used rental units.

Other Income and Expenses

The following table summarizes other income and expenses for the nine months ended September 30, 2015 and 2014 (amounts in thousands, expenses shown as negative).

	2015	2014	Variance	% Change

Total other income and expenses, net	\$ (197,054)	\$ (185,955)	\$ (11,099)	(6.0)%

Depreciation on real estate and rental homes increased primarily due to the acquisitions that occurred during the third and fourth quarters of 2014 (see Note 4 in the Notes to the Consolidated Financial Statements for additional detail regarding our recent acquisition activity).

Amortization of in-place leases decreased primarily due to the expected one-year life of in-place leases. The variance is further driven by the higher rate of amortization relating to the 2014 in-place leases which were fully amortized prior to the beginning of 2015.

Management's Discussion (continued)

Income from other investments, net, decreased approximately \$1.0 million due to the collection in 2014 of a previously reserved receivable.

General and administrative expenses increased primarily due to the timing of the 2015 restricted stock awards (see Note 10 in the Notes to the Consolidated Financial Statements for additional detail regarding our stock-based compensation plan).

Early debt retirement expense increased as a result of the defeasance and prepayment activity that occurred during the first quarter of 2015, offset by the \$5.1 million fee associated with the early debt retirement of the loan secured by our Colony Cove community incurred in 2014 (see Note 7 in the Notes to the Consolidated Financial Statements for additional detail regarding our first quarter defeasance and refinancing activity).

A decrease in secured debt and lower weighted average interest rates contributed to the decrease in interest and related amortization.

Liquidity and Capital Resources

Liquidity

Our primary demands for liquidity include payment of operating expenses, debt service, including principal and interest, capital improvements on properties, purchasing both new and pre-owned homes, acquisitions of new Properties, and distributions. We expect similar demands for liquidity will continue for the short-term and long-term. Our primary sources of cash include operating cash flows, proceeds from financings, borrowings under our LOC and proceeds from issuance of equity and debt securities. On May 4, 2015, we extended our current "at the market" offering program by entering into new separate equity distribution agreements with certain sales agents, pursuant to which we may sell, from time-to-time, shares of our common stock, par value \$0.01 per share, having an aggregate offering price of up to \$125.0 million. As of September 30, 2015, we have not sold any common stock under the equity distribution agreements. In addition, we have available liquidity in the form of authorized and unissued preferred stock of approximately 9.9 million shares and approximately 115.7 million shares of authorized but unissued common stock registered for sale under the Securities Act of 1933, as amended, by a shelf registration statement which was automatically effective when filed with the SEC. Our charter allows for us to issue up to 200.0 million shares of common stock, par value \$0.01 per share and up to 10.0 million shares of preferred stock, par value \$0.01 per share.

One of our stated objectives is to maintain financial flexibility. Achieving this objective allows us to take advantage of strategic opportunities that may arise. We believe effective management of our balance sheet, including maintaining various access points to raise capital, manage future debt maturities and borrow at competitive rates enables us to meet this objective. We believe we currently have sufficient liquidity, in the form of \$84.4 million in available cash, net of restricted cash, as of September 30, 2015 and \$400.0 million available on our LOC, to satisfy our near term obligations. Our LOC has a borrowing capacity of \$400.0 million with the option to increase the borrowing capacity by \$100.0 million, subject to certain conditions (see Note 7 to the Consolidated Financial Statements).

We expect to meet our short-term liquidity requirements, including the third quarter distribution of approximately \$34.3 million paid on October 9, 2015, as well as all the remaining distributions, generally through available cash as well as net cash provided by operating activities and availability under our existing LOC. We consider these resources to be adequate to meet our operating requirements for capital improvements, amortizing debt and payment of dividends and distributions.

We expect to meet certain long-term liquidity requirements such as scheduled debt maturities, property acquisitions and capital improvements by use of our current cash balance, long-term collateralized and uncollateralized borrowings including borrowings under the existing LOC and the issuance of debt securities or additional equity securities, in addition to net cash provided by operating activities. As of September 30, 2015, we have no remaining scheduled debt maturities in 2015. We expect to satisfy our 2016 maturities with existing cash, anticipated operating cash flow and/or refinancing proceeds.

During the nine months ended September 30, 2015, we closed on loans with gross proceeds of \$395.3 million. The loans have a weighted average maturity of 21 years and carry a weighted average interest rate of 3.93% per annum and were secured by 26 manufactured home properties and RV resorts. Proceeds from the financings were used to retire by defeasance and prepayment approximately \$370.2 million of loans maturing at various times throughout 2015 and 2016, with a weighted average interest rate of 5.58% per annum, which were secured by 32 manufactured home properties and RV resorts. We incurred approximately \$17.0 million in early debt retirement expense related to these loans. We also paid off two maturing mortgage loans of approximately \$48.7 million, with a weighted average interest rate of 5.73% per annum, secured by one manufactured home property and three RV resorts.

Management's Discussion (continued)

The table below summarizes cash flow activity for the nine months ended September 30, 2015 and 2014 (amounts in thousands):

	Nine Months Ended September 30,	
	2015	2014
Net cash provided by operating activities	\$ 287,219	\$ 228,342
Net cash used in investing activities	(95,260)	(81,432)
Net cash used in financing activities	(176,278)	(96,193)
Net increase in cash	\$ 15,681	\$ 50,717

Operating Activities

Net cash provided by operating activities increased \$58.9 million to \$287.2 million for the nine months ended September 30, 2015, from \$228.3 million for the nine months ended September 30, 2014. The overall increase in net cash provided by operating activities is primarily due to an increase in Income from property operations of \$19.0 million, a decrease in Escrow deposits, goodwill and other assets of \$21.1 million, an increase of \$10.9 million in Accrued expenses and accounts payable as well as an increase of \$2.9 million in Rents received in advance and security deposits.

Investing Activities

Net cash used in investing activities was \$95.3 million for the nine months ended September 30, 2015 compared to \$81.4 million for the nine months ended September 30, 2014. Significant components of net cash used in investing activities include:

- We paid approximately \$23.7 million in 2015 to acquire the Bogue Pines manufactured home property, Whispering Pines RV Resort, and Miami Everglades RV Resort. We paid approximately \$54.6 million in 2014 to acquire the Blackhawk, Lakeland, Pine Acres, Echo Farms, and Mays Landing RV resorts as well as the Colony Cove land purchase (see Note 4 to the Consolidated Financial Statements for a description of our recent acquisitions).
- We received approximately \$2.1 million in proceeds in 2014 from the condemnation of a certain parcel at our Seyenna Vista Property (see Note 4 to the Consolidated Financial Statements for additional detail regarding this 2014 disposition).
- We received approximately \$10.6 million of the net deferred exchange deposits in 2014 which were used to acquire the Blackhawk and Lakeland RV resorts.
- We contributed \$4.0 million to our ECHO JV in 2015 compared to the \$3.5 million we invested in 2014. This is offset by \$0.1 million and \$0.4 million of distributions of capital from our joint ventures for the nine months ended September 30, 2015 and 2014, respectively (see Note 5 to the Consolidated Financial Statements for a description of our joint ventures).
- We received approximately \$7.9 million of repayments on notes receivable in 2015 compared to \$12.5 million in 2014, partially offset by new notes receivable of \$7.7 million in 2015 compared to \$7.3 million in 2014 (see Note 6 to the Consolidated Financial Statements for further discussion of our notes receivable).
- We paid approximately \$67.8 million and \$41.6 million for capital improvements during the nine months ended September 30, 2015 and 2014, respectively (see Capital Improvements table below).

Management's Discussion (continued)

Capital Improvements

The table below summarizes capital improvements activity for the nine months ended September 30, 2015 and 2014 (amounts in thousands):

	Nine Months Ended September 30, ⁽¹⁾

⁽¹⁾ Excludes non-cash activity of approximately \$0.6 million and \$1.0 million of used homes acquired by repossessions of Chattel Loans collateral for the nine months ended September 30, 2015 and 2014, respectively.

⁽²⁾ Recurring capital expenditures are primarily comprised of common area improvements, furniture, and mechanical improvements.

⁽³⁾ Excludes new home investment associated with our ECHO JV.

Financing Activities

Net cash used in financing activities was \$176.3 million for the nine months ended September 30, 2015 compared to net cash used in financing activities of \$96.2 million for the nine months ended September 30, 2014. Significant components of net cash used in financing activities include:

- We received \$395.3 million in financing proceeds in 2015 and \$169.0 million in 2014. (see Note 7 to the Consolidated Financial Statements for a description of our borrowing arrangements).
- We paid approximately \$27.8 million of amortizing principal debt, approximately \$48.7 million of maturing mortgages, defeased approximately \$370.2 million of debt and paid a total of approximately \$24.0 million in debt issuance and defeasance costs as well as early debt retirement costs in 2015. This compares to the refinancing of a \$53.8 million loan secured by our Colony Cove community, as well as approximately \$25.4 million of amortizing principal debt, approximately \$86.3 million of maturing mortgages, and approximately \$11.6 million in debt issuance and early debt retirement costs paid in 2014 (see Note 7 to the Consolidated Financial Statements for a description of our borrowing arrangements).
- We made distributions of approximately \$105.1 million in 2015 to Common Stockholders, Common OP unitholders and preferred stockholders and paid approximately \$0.4 million for offering costs and other expenses, offset by proceeds received of approximately \$4.6 million from the exercise of stock options and the sale of shares through the employee stock purchase plan (see Note 3 to the Consolidated Financial Statements for a description of our equity transactions).
- We made distributions of approximately \$88.8 million in 2014 to Common Stockholders, Common OP unitholders and preferred stockholders and paid approximately \$0.2 million for offering costs, offset by proceeds received of approximately \$0.9 million from the exercise of stock options and the sale of shares through the employee stock purchase plan (see Note 3 to the Consolidated Financial Statements for a description of our equity transactions).

Management's Discussion (continued)

Contractual Obligations

As of September 30, 2015, we were subject to certain contractual payment obligations as described in the table below (amounts in thousands):

	Total ⁽⁵⁾	2015	2016	2017	2018	2019	Thereafter
Long Term Borrowings ⁽¹⁾	\$ 2,146,513	\$ 9,647	\$ 119,122	\$ 97,531	\$ 230,046	\$ 231,392	\$ 1,458,775

Total Contractual Obligations	<u>\$ 2,898,640</u>	<u>\$ 36,667</u>	<u>\$ 224,188</u>	<u>\$ 194,797</u>	<u>\$ 317,745</u>	<u>\$ 303,858</u>	<u>\$ 1,821,385</u>
Weighted average interest rates - Long Term Borrowings	4.52%	4.81%	4.79%	4.72%	4.63%	4.41%	4.32%

⁽¹⁾ Balance excludes note premiums of \$9.7 million. Balances include debt maturing and scheduled periodic principal payments.

⁽²⁾ Amounts include interest expected to be incurred on our secured debt based on obligations outstanding as of September 30, 2015.

⁽³⁾ As of September 30, 2015, assumes we will not exercise our one year extension option on July 17, 2018 and assumes we will maintain our current leverage ratios as defined by the LOC.

⁽⁴⁾ We also lease land under non-cancelable operating leases at certain of the Properties expiring in various years from 2015 to 2054. The majority of the lease terms require twelve equal payments per year plus additional rents calculated as a percentage of gross revenues.

⁽⁵⁾ We do not include insurance, property taxes and cancelable contracts in the contractual obligations table.

We believe that we will be able to refinance our maturing debt obligations on a secured or unsecured basis; however, to the extent we are unable to refinance our debt as it matures, we believe that we will be able to repay such maturing debt through available cash as well as operating cash flow, asset sales and/or the proceeds from equity issuances. With respect to any refinancing of maturing debt, our future cash flow requirements could be impacted by significant changes in interest rates or other debt terms, including required amortization payments.

Inflation

Substantially all of the leases at the Properties allow for monthly or annual rent increases which provide us with the opportunity to achieve increases, where justified by the market, as each lease matures. Such types of leases generally minimize our risks of inflation. In addition, our resort Properties are not generally subject to leases and rents are established for these Sites on an annual basis. Our right-to-use contracts generally provide for an annual dues increase, but dues may be frozen under the terms of certain contracts if the customer is over 61 years of age.

Off Balance Sheet Arrangements

As of September 30, 2015, we have no off balance sheet arrangements.

Funds From Operations

Funds from Operations ("FFO") is a non-GAAP financial measure. We believe FFO, as defined by the Board of Governors of the National Association of Real Estate Investment Trusts ("NAREIT"), is generally an appropriate measure of performance for an equity REIT. While FFO is a relevant and widely used measure of operating performance for equity REITs, it does not represent cash flow from operations or net income as defined by GAAP, and it should not be considered as an alternative to these indicators in evaluating liquidity or operating performance.

We define FFO as net income, computed in accordance with GAAP, excluding gains and actual or estimated losses from sales of Properties, plus real estate related depreciation and amortization, impairments, if any, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures are calculated to reflect FFO on the same basis. We receive up-front non-refundable payments from the entry of right-to-use contracts. In accordance with GAAP, the up-front non-refundable payments and related commissions are deferred and amortized over the estimated customer life. Although the NAREIT definition of FFO does not address the treatment of non-refundable right-to-use payments, we believe that it is appropriate to adjust for the impact of the deferral activity in our calculation of FFO.

Normalized Funds from Operations ("Normalized FFO") is a non-GAAP measure. We define Normalized FFO as FFO excluding the following non-operating income and expense items: a) the financial impact of contingent consideration; b) gains and losses from early debt extinguishment, including prepayment penalties and defeasance costs; c) property acquisition and other transaction costs related to mergers and acquisitions; and d) other miscellaneous non-comparable items.

Management's Discussion (continued)

We believe that FFO and Normalized FFO are helpful to investors as supplemental measures of the performance of an equity REIT. We believe that by excluding the effect of depreciation, amortization and actual or estimated gains or losses from sales of real estate, all of which are based on historical costs and which may be of limited relevance in evaluating current performance, FFO can facilitate comparisons of operating performance between periods and among other equity REITs. We further believe that Normalized FFO provides useful information to investors, analysts and our management because it allows them to compare our operating performance to the operating performance of other real estate companies and between periods on a consistent basis without having to account for differences not related to our operations. For example, we believe that excluding the early extinguishment of debt, property acquisition and other transaction costs related to mergers and acquisitions and the change in fair value of our contingent consideration asset from Normalized FFO allows investors, analysts and our management to assess the sustainability of operating performance in future periods because these costs do not affect the future operations of the Properties. In some cases, we provide information about identified non-cash components of FFO and Normalized FFO because it allows investors, analysts and our management to assess the impact of those items.

Investors should review FFO and Normalized FFO along with GAAP net income and cash flow from operating activities, investing activities and financing activities, when evaluating an equity REIT's operating performance. We compute FFO in accordance with our interpretation of standards established by NAREIT, which may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently than we do. Normalized FFO presented herein is not necessarily comparable to normalized FFO presented by other real estate companies due to the fact that not all real estate companies use the same methodology for computing this amount. FFO and Normalized FFO do not represent cash generated from operating activities in accordance with GAAP, nor do they represent cash available to pay distributions and should not be considered as an alternative to net income, determined in accordance with GAAP, as an indication of our financial performance, or to cash flow from operating activities, determined in accordance with GAAP, as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to make cash distributions.

The following table presents a calculation of FFO available for Common Shares and Normalized FFO available for Common Shares for the quarters and nine months ended September 30, 2015 and 2014 (amounts in thousands):

Item 3. Quantitative and Qualitative Disclosure of Market Risk

We disclosed a quantitative and qualitative analysis regarding market risk in Part II, Item 7A. Quantitative and Qualitative Disclosures About Market Risk on Form 10-K for the year ended December 31, 2014. There have been no material changes in the assumptions used or results obtained regarding market risk since December 31, 2014.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer), has evaluated the effectiveness of our disclosure controls and procedures as of September 30, 2015. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective to give reasonable assurances to the timely collection, evaluation and disclosure of information relating to us that would potentially be subject to disclosure under the Securities and Exchange Act of 1934, as amended (the "Exchange Act"), and the rules and regulations promulgated thereunder as of September 30, 2015.

Notwithstanding the foregoing, a control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that it will detect or uncover failures within us to disclose material information otherwise required to be set forth in our periodic reports.

Changes in Internal Control Over Financial Reporting

During the third quarter of 2015, there were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II – Other Information

Item 1. Legal Proceedings

(Principal Accounting Officer)

**CERTIFICATION OF CHIEF FINANCIAL OFFICER PURSUANT TO SECTION 302 OF
THE SARBANES-OXLEY ACT OF 2002**

I, Paul Seavey, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Equity LifeStyle Properties, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
