Non-GAAP Financial Measures

This document contains certain Non-GAAP measures used by management that we believe are helpful to understand our business. We believe investors should review these Non-GAAP measures along with GAAP net income and cash flows from operating activities, investing activities and financing activities, when evaluating an equity REIT's operating performance. Our definitions and calculations of these Non-GAAP financial and operating measures and other terms may differ from the definitions and methodologies used by other REITs and, accordingly, may not be comparable. These Non-GAAP financial and operating measures do not represent cash generated from operating activities in accordance with GAAP, nor do they represent cash available to pay distributions and should not be considered as an alternative to net income, determined in accordance with GAAP, as an indication of our financial performance, or to cash flows from operating activities, determined in accordance with GAAP, as a measure of our liquidity, nor are they indicative of funds available to fund our cash needs, including our ability to make cash distributions. For definitions and reconciliations of Non-GAAP measures to our financial statements as prepared under GAAP, refer to both Reconciliation of Net Income to Non-GAAP Financial Measures on page 6 and Non-GAAP Financial Measures Definitions and Reconciliations on pages 16-19.

Non-GAAP Financial Measures Definitions and Reconciliations

The following Non-GAAP financial measures definitions do not include adjustments in respect to membership upgrade revenue: (i) FFO; (ii) Normalized FFO; (iii) EBITDAre; (iv) Adjusted EBITDAre; (v) Property operating revenues; (vi) Property operating expenses, excluding property management; and (vii) Income from property operations, excluding property management.

FUNDS FROM OPERATIONS (FFO). We define FFO as net income, computed in accordance with GAAP, excluding gains or losses from sales of properties, depreciation and amortization related to real estate, impairment charges and adjustments to reflect our share of FFO of unconsolidated joint ventures. Adjustments for unconsolidated joint ventures are calculated to reflect FFO on the same basis. We compute FFO in accordance with our interpretation of standards established by the National Association of Real Estate Investment Trusts (“NAREIT”), which may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently than we do.

We believe FFO, as defined by the Board of Governors of NAREIT, is generally a measure of performance for an equity REIT. While FFO is a relevant and widely used measure of operating performance for equity REITs, it does not represent cash flow from operations or net income as defined by GAAP, and it should not be considered as an alternative to these indicators in evaluating liquidity or operating performance.

NORMALIZED FUNDS FROM OPERATIONS (NORMALIZED FFO). We define Normalized FFO as FFO excluding non-operating income and expense items, such as gains and losses from early debt extinguishment, including prepayment penalties, defeasance costs, transaction/pursuit costs and other, and other miscellaneous non-comparable items. Normalized FFO presented herein is not necessarily comparable to Normalized FFO presented by other real estate companies due to the fact that not all real estate companies use the same methodology for computing this amount.

FUNDS AVAILABLE FOR DISTRIBUTION (FAD). We define FAD as Normalized FFO less non-revenue producing capital expenditures.

We believe that FFO, Normalized FFO and FAD are helpful to investors as supplemental measures of the performance of an equity REIT. We believe that by excluding the effect of gains or losses from sales of properties, depreciation and amortization related to real estate and impairment charges, which are based on historical costs and may be of limited relevance in evaluating current performance, FFO can facilitate comparisons of operating performance between periods and among other equity REITs. We further believe that Normalized FFO provides useful information to investors, analysts and our management because it allows them to compare our operating performance to the operating performance of other real estate companies and between periods on a consistent basis without having to account for differences not related to our normal operations. For example, we believe that excluding the early extinguishment of debt and other miscellaneous non-comparable items from FFO allows investors, analysts and our management to assess the sustainability of operating performance in future periods because these costs do not affect the future operations of the properties. In some cases, we provide information about identified non-cash components of FFO and Normalized FFO because it allows investors, analysts and our management to assess the impact of those items.

INCOME FROM PROPERTY OPERATIONS, EXCLUDING PROPERTY MANAGEMENT. We define Income from property operations, excluding property management as rental income, membership subscriptions and upgrade sales, utility and other income less property and rental home operating and maintenance expenses, real estate taxes, membership sales and marketing expenses, excluding property management expenses. Property management represents the expenses associated with indirect costs such as off-site payroll and certain administrative and professional expenses. We believe exclusion of property management expenses is helpful to investors and analysts as a measure of the operating results of our properties, excluding items that are not directly related to the operation of the properties. For comparative purposes, we present bad debt expense within Property operating, maintenance and real estate taxes in the current and prior periods. We believe that this Non-GAAP financial measure is helpful to investors and analysts as a measure of the operating results of our properties.

EARNINGS BEFORE INTEREST, TAX, DEPRECIATION AND AMORTIZATION FOR REAL ESTATE (EBITDAre) AND ADJUSTED EBITDAre. We define EBITDAre as net income or loss excluding interest income and expense, income taxes, depreciation and amortization, gains or losses from sales of properties, impairments charges, and adjustments to reflect our share of EBITDAre of unconsolidated joint ventures. We compute EBITDAre in accordance with our interpretation of the standards established by NAREIT, which may not be comparable to EBITDAre reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently than we do.

We define Adjusted EBITDAre as EBITDAre excluding non-operating income and expense items, such as gains and losses from early debt extinguishment, including prepayment penalties and defeasance costs, transaction/pursuit costs and other, and other miscellaneous non-comparable items.

We believe that EBITDAre and Adjusted EBITDAre may be useful to an investor in evaluating our operating performance and liquidity because the measures are widely used to measure the operating performance of an equity REIT.

CORE. The Core properties include properties we owned and operated during all of 2024 and 2025. The Non-Core properties in 2025 include properties that were not owned and operated during all of 2024 and 2025, including six properties in Florida impacted by Hurricane Ian and two properties in California that were impacted by storm and flooding events. The 2025 guidance reflects Non-Core properties in 2025, which includes properties not owned and operated during all of 2024 and 2025.

NON-REVENUE PRODUCING IMPROVEMENTS. Represents capital expenditures that do not directly result in increased revenue or expense savings and are primarily comprised of common area improvements, furniture and mechanical improvements.

FIXED CHARGES. Fixed charges consist of interest expense, amortization of note premiums and debt issuance costs.
