Winter Differently

Look inside for exciting destinations in Winter Differently!
Our Story

• One of the nation’s largest real estate networks with 382 properties containing over 141,200 sites in 32 states and British Columbia

• Unique business model
  ▶ Own the land
  ▶ Low maintenance costs/customer turnover costs
  ▶ Lease developed sites

• High-quality real estate locations
  ▶ More than 80 properties with lake, river or ocean frontage
  ▶ More than 100 properties within 10 miles of coastal United States
  ▶ Property locations are strongly correlated with population migration
  ▶ Property locations in retirement and vacation destinations

• Stable, predictable financial performance and fundamentals
  ▶ Balance sheet flexibility

• In business for more than 40 years
Property Locations
Steady, Predictable Revenue Streams

Property/Site composition

- 201 manufactured/resort home communities
  - 71,500 sites

- 181 RV resorts
  - 69,700 sites
  - Annuals 25,600
  - Seasonal 9,400
  - Transient 10,600
  - Membership sites 24,100

Note:
1) Property revenue buckets reflect Company’s estimated 2014 property operating revenues, derivable from our guidance furnished with the SEC as Exhibit 99.1 to the Form 8-K filed on October 21, 2014 (“ELS Reports Third Quarter Results”).
Our Lifestyle Options

- Customers own the units they place on our sites
  - Manufactured homes
  - Resort cottages (park models)
  - Recreational vehicles

- We offer a lifestyle and a variety of product options to meet our customers’ needs

- We seek to create long-term relationships with our customers
Favorable Customer Demographics

• The population of people age 55 and older is expected to grow 26% from 2015 to 2030

U.S. Population Over Age 55 (in millions)

New Residents
MH - Average age: 62 years
RV - Average age: 55 years

Roughly 10,000 Baby Boomers will turn 65 every day through 2030.

### Notes:

1) See pages 15 and 16 for the reconciliation and definition of FFO and Normalized FFO. The 1993 amount was determined from amounts presented in the 1996 Form 10-K. The 2014 FFO Per Share and Normalized FFO Per Share amounts are the midpoint of the estimated 2014 FFO Per Share and Normalized FFO Per Share range disclosed in our guidance furnished with the SEC as Exhibit 99.1 to the Form 8-K filed on October 21, 2014.

2) The 1993 stock price is adjusted for the stock split; the 2014 price is the closing price as of September 30, 2014.

5) Source: SNL Financial from IPO through September 30, 2014 (calculation assumes common dividend reinvestment).
ELS has maintained positive same store NOI growth in all quarters since at least Q3 '98.

Note:
1) Source for Same Store NOI data: Citi Investment Research, August 2014. Earliest quarter collected by Citi is third quarter of 1998. "REIT Industry" includes an index of REITs across a variety of asset classes, including regional malls, shopping centers, multifamily, student housing, manufactured homes, self storage, office, industrial, mixed office and specialty.
ELS vs. Multifamily

Same Store NOI Indexed Growth\(^{(1)}\)

ELS compounded Same Store NOI growth rates significantly outperformed the REIT Multifamily industry since 1999

Note:
1) Source: Citi Investment Research, March 2014. Same Store Indexed Growth assumes initial investment of $100 multiplied by the annual same store NOI growth rate.
2) Source: Citi Investment Research, March 2014. Averages equal annualized quarterly same store NOI averages collected by Citi.
3) Source: SNL Financial. Average FFO Multiple for the period calculated on trailing 12-month basis. Multiple equals stock price divided by t-12 month FFO per share.
4) The Multi-family Index FFO multiples include only US companies that report FFO.
Capital Structure

As of September 30, 2014 (in millions)

- Total enterprise value is $6.2 billion
- Debt to enterprise value is 35.6%
- $400 million available line of credit

Note:
1) Stock price as of September 30, 2014.
2015 Guidance\(^{(1)}\)

- **Normalized FFO of $268.5 million**
  - $2.88 - $2.98 per fully diluted share
  - 7% growth
- **Core NOI growth of 4.3%**
  - Core MH rent growth of 2.8%
  - Core RV revenue growth of 4.3%
- **2015 dividend of $1.50 per share**
  - 15% increase over 2014
  - 50% increase in last two years

---

Note:

(1) See pages 15 and 16 for the reconciliation and definition of FFO and Normalized FFO. The 2015 Normalized FFO and Core NOI growth are the mid-points of the respective estimated 2015 Normalized FFO and Core NOI growth disclosed in our guidance furnished with the SEC as Exhibit 99.1 to the Form 8-K filed on October 21, 2014.

Note:
1) The 2014 and 2015 amounts are the midpoint of an estimate range. See our guidance furnished with the SEC as exhibit 99.1 to the Form 8-K filed on October 21, 2014.
Funds from Operations ("FFO") is a non-GAAP financial measure. We believe FFO, as defined by the Board of Governors of the National Association of Real Estate Investment Trusts ("NAREIT"), is generally an appropriate measure of performance for an equity REIT. While FFO is a relevant and widely used measure of operating performance for equity REITs, it does not represent cash flow from operations or net income as defined by GAAP, and it should not be considered as an alternative to these indicators in evaluating liquidity or operating performance.

We define FFO as net income, computed in accordance with GAAP, excluding gains and actual or estimated losses from sales of properties, plus real estate related depreciation and amortization, impairments, if any, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures are calculated to reflect FFO on the same basis. We receive up-front non-refundable payments from the entry of right-to-use contracts. In accordance with GAAP, the up-front non-refundable payments and related commissions are deferred and amortized over the estimated customer life. Although the NAREIT definition of FFO does not address the treatment of non-refundable right-to-use payments, we believe that it is appropriate to adjust for the impact of the deferral activity in our calculation of FFO.

Normalized Funds from Operations ("Normalized FFO") is a non-GAAP measure. We define Normalized FFO as FFO excluding the following non-operating income and expense items: a) the financial impact of contingent consideration; b) gains and losses from early debt extinguishment, including prepayment penalties and defeasance costs; c) property acquisition and other transaction costs related to mergers and acquisitions; and d) other miscellaneous non-comparable items.

We believe that FFO and Normalized FFO are helpful to investors as supplemental measures of the performance of an equity REIT. We believe that by excluding the effect of depreciation, amortization and actual or estimated gains or losses from sales of real estate, all of which are based on historical costs and which may be of limited relevance in evaluating current performance, FFO can facilitate comparisons of operating performance between periods and among other equity REITs. We further believe that Normalized FFO provides useful information to investors, analysts and our management because it allows them to compare our operating performance to the operating performance of other real estate companies and between periods on a consistent basis without having to account for differences not related to our operations. For example, we believe that excluding the early extinguishment of debt, property acquisition and other transaction costs related to mergers and acquisitions and the change in fair value of our contingent consideration asset from Normalized FFO allows investors, analysts and our management to assess the sustainability of operating performance in future periods because these costs do not affect the future operations of the properties. In some cases, we provide information about identified non-cash components of FFO and Normalized FFO because it allows investors, analysts and our management to assess the impact of those items.

Investors should review FFO and Normalized FFO along with GAAP net income and cash flow from operating activities, investing activities and financing activities, when evaluating an equity REIT’s operating performance. We compute FFO in accordance with our interpretation of standards established by NAREIT, which may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently than we do. Normalized FFO presented herein is not necessarily comparable to normalized FFO presented by other real estate companies due to the fact that not all real estate companies use the same methodology for computing this amount. FFO and Normalized FFO do not represent cash generated from operating activities in accordance with GAAP, nor do they represent cash available to pay distributions and should not be considered as an alternative to net income, determined in accordance with GAAP, as an indication of our financial performance, or to cash flow from operating activities, determined in accordance with GAAP, as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to make cash distributions.
